RESEARCH INTEREST

Neural Engineering || Neuroimaging || Medical Imaging || Biodevices and Biosensors || Medical Technology || Computational Modeling || Experimental Neuroscience and Physiology.

EDUCATION

University of Ilorin (UNILORIN), Kwara State, Nigeria

Nov. 2019 – Aug. 2025

B.Eng in Biomedical Engineering (First Class Honors - 4.78/5.00)

Thesis Title: Design and Implementation of An Artificial Intelligence (AI) - Powered Epileptic Fall Detection System Using Public Space Camera and Caregiver Notification.

RESEARCH EXPERIENCE

- **Undergraduate Research Assistant:** Biomedical Engineering Laboratory, UNILORIN **Oct. 2023 – Jul. 2025**
 - Design and Implementation of AI-Powered Epileptic Fall Detection System using public space camera and caregiver notification.
 - Authored and published a peer-reviewed review paper titled “*Nanoparticles in Targeted Drug Delivery: Advancement in Design, Fabrication, and Applications*” in the FETiCON 2025 Conference Proceedings.
 - Assisted academic staff in the Department of Biomedical Engineering in research and administrative work
 - I led a team in designing “A Smart Patient Counter for reduction of overpopulation in hospitals and enhancement of time management for medical personnel”

TEACHING EXPERIENCE

- **Tutor:** Department of Biomedical Engineering, University of Ilorin, Ilorin **Aug. 2023 – Aug. 2025**
 - Organized and conducted tutorial classes on core Biomedical Engineering courses across all levels.
 - Assisted in compiling past questions and simplifying complex courses in each semester for easy understanding.
- **Part-Time High School Teacher:** Muslim Model College, Igangan, Nigeria **March 2020 – Sept. 2020**
 - Taught Physics and Mathematics to senior classes 1, 2 & 3.
 - Provided assessments and graded students on the courses taught and practical sessions

WORK EXPERIENCE

- **Biomedical Engineering Intern:** Biomedical Engineering Department, University College Hospital (UCH), Ibadan **2024**
 - Engaged in training of medical personnel on professional handling of medical devices
 - Engaged in the installation of new medical equipment like dental chairs, oxygen concentrators, and compressors.
 - Supported patient diagnosis and treatment by installing, calibrating and repairing medical devices
- **Biomedical Engineering Intern:** Biomedical Engineering Department, University College Hospital (UCH), Ibadan **2023**
 - Repaired medical devices at the Biomedical Engineering department such as oxygen concentrators and mechanical ventilators
 - Gained experience working with field engineers from General Electric (GE) during the installation of medical Imaging device
 - Maintained medical imaging equipment and installation such as Ultrasound, Digital X-rays, and MRI

CONFERENCES ATTENDED

- Nigerian Society of Biomedical and Clinical Engineering (NSBCE) Annual Conference **2025**
Theme: Revolutionizing Patient Care and Safety from Innovation to Regulation and Implementation
- Faculty of Engineering and Technology International Conference (FETiCON) - University of Ilorin **2025**
Theme: Revitalizing Communities: The role of indigenous technologies in addressing food security, energy, and economic challenges for a sustainable future.
- National Society of Black Engineers (NSBE - NIGERIA) National Conference 2025 - University of Ilorin **2025**
Theme: Beyond Boundaries: Shaping the Future of Leadership and Empowering the next generation of Engineers
- National Society of Black Engineers (NSBE) Academic Symposium - University of Ilorin **2024**
Theme: Empowering academic excellence for Black Engineers.
- Faculty of Engineering and Technology International Conference (FETiCON) **2023**
Theme: Advances and Technological Innovations in Nation Building and Attainment of Sustainable Development Goals (SDGs).

- Nigerian Universities Engineering Students Association (NUESA) Conference 2021
Theme: Leapfrogging Engineering Education and Practices through an all-inclusive Sustainable Pathway.

PUBLICATIONS AND PRESENTATIONS

- **A.O. Olalere**, B.O. Muhammed, S. Saminu, S.A. Yahaya, T.M. “Application Of Artificial Intelligence (Ai) In Medical Imaging For Enhanced Diagnostic Accuracy And Healthcare Transformation.”. Manuscript submitted to The Global Clinical Engineering Alliance Journal for Publication. ([Link to manuscript](#)) 2025
- **A.O. Olalere**, S. Saminu, S.A. Yahaya, T.M. Ajibola, K.O. Salaudeen, M. K. Abdulkadir, and H.H. Mohammed “Design and Implementation of AI-Powered Epileptic Fall Detection System Using Public Space Camera and Caregiver Notification”. Manuscript submitted to The Islamic University Journal of Applied Sciences for publication. ([Link to manuscript](#)) 2025
- **A.O. Olalere**, D.F. Aondoakaa, O.A. Yinusa, S. Saminu, S.A. Yahaya, I.O. Muniru, K.O. Salaudeen, and T.M. Ajibola, “Nanoparticles in Targeted Drug Delivery: Advancement in Design, Fabrication, and Application.” ([Link to publication](#)) 2025
- Faculty of Engineering and Technology International Conference (FETiCON 2025) Students’ Colloquium, 3-Minute Presentation on “Artificial Intelligence in Medical Imaging and Diagnostics.” ([Link to presentation details](#)) 2025
- Faculty of Engineering and Technology International Conference (FETiCON 2025), Students' Colloquium, Poster Presentation on “Design and Implementation of Artificial Intelligence (AI) - Powered Epileptic Fall Detection System Using Public Space Camera and Caregiver Notification” and emerged as the best presenter. ([Link to presentation](#)) 2025
- Faculty of Engineering and Technology International Conference (FETiCON 2025), Students' Colloquium, Project Exhibition on “Development of a Smart Blind Walking Stick”, and emerged as the second runner up. ([Link to the exhibition](#)) 2025
- Biomedical Engineering Design (BME 403) Presentation, “A Smart Patient Counter for Reduction of Overpopulation in Hospitals and Enhancement pf Time Management for Medical Personnel”, By **A.O. Olalere**, Department of Biomedical Engineering, University of Ilorin. ([Link to presentation slide](#)) 2024

VOLUNTEERING AND COMMUNITY SERVICE

- Volunteer, Technical Team Member of Engineering Project Exhibition (EPEX 2025) May – June 2025
- Volunteer and Member, Faculty of Engineering and Technology, Group for Recycling and Environmental Networking June 2025
- Mentor and Tutor, National Society of Black Engineers (NSBE) 2023-2025
- DSA Mentor for newly admitted undergraduate students of the University of Ilorin 2022-2025
- Planning Committee Chairman, African Student for Liberty (ASFL) Symposium Dec. 2024

LEADERSHIP RESPONSIBILITIES / EXPERIENCES

- **Chairman**: National Association of Igangan Students (NAIS) Education Summit Oct 2025 - Dec. 2025
- **Chapter Secretary**: National Society of Black Engineers (NSBE) - University of Ilorin Collegiate Oct 2024– Sept. 2025
- **Vice President**: African Students for Liberty (ASFL) – University of Ilorin Chapter Sept. 2024 – Sept. 2025
- **Academic Mentor**: Dareword Students Association (DSA) – University of Ilorin Sept. 2022 – July 2025
- **Project Manager**: Community Based Experience Scheme (COBES), Ilorin, Nigeria Oct. 2024 – Nov. 2024
- **Assistant General Secretary**: National Association of Biomedical Engineering Students, Electoral Committee (NABESEC) Sept. – Nov. 2023

AWARDS / HONOURS

- Award of service, as the Chairman, National Association of Igangan Students (NAIS) 2025 Education Summit 2025
- Award of Academic Excellence in recognition of outstanding academic achievement as a First-Class graduate by NAIS 2025
- Best graduating student in Biomedical Imaging, Department of Biomedical Engineering, University of Ilorin 2025
- Best Poster Presenter, Faculty of Engineering and Technology International Conference (FETiCON 2025) 2025
- 2nd-runner up in project exhibition, Faculty of Engineering and Technology International Conference 2025
- Yusuf Olaolu Ali Foundation Scholarship for 50 final-year undergraduates in Kwara state, Nigeria 2025
- Ganiyu Oladele Foundation (G.O.F) Pilot Scholarship Award for 3 best final-year students in Ibarapa Area of Oyo state 2025
- Oyo State Government Scholarship for final-year Indigenous students in Oyo state 2025
- Ilorin Emirate Professors’ Association (IEPA), Scholarship Award for outstanding undergraduates in Kwara State 2024

PROFESSIONAL DEVELOPMENT AND CERTIFICATIONS

- **AI Python for Beginners: Basics of AI Python Coding – DeepLearning.AI** ([Certification](#)) 2024
Coding, Data in Python, combining text and Calculation, Variables, Building LLM Prompts with Variables
- **Biology meets Programming: Bioinformatics for Beginners – Coursera** ([Certification](#)) 2023
Bioinformatics, Biology, Bioinformatics Algorithms, and Python Programming

- **Foundations: Data, Data Everywhere – Coursera** ([\(Certification\)](#)) **2023**
Spreadsheet, Data Analysis, SQL, Data Visualization, and Data Cleansing
- **What is Data Science? – Coursera** ([\(Certification\)](#)) **2023**
Data Science, Big Data, Machine Learning, Deep Learning, and Data Mining

PROFESSIONAL MEMBERSHIP / AFFILIATIONS

-
- Nigerian Society of Engineers (NSE) **I.D. NO: 149314** **2025**
 - Nigerian Institute of Mechanical Engineers (NiMECHE) **I.D NO: G004170** **2025**
 - National Society of Black Engineers (NSBE) **I.D NO: 495256** **2022**
 - International Association of Engineers (IAENG) **I.D NO: 272606** **2020**

APPLICABLE SKILLS

-
- Medical equipment troubleshooting and repair
 - Project planning and management
 - Team collaboration
 - Leadership
 - Time management
 - Effective communication
 - Strategic planning
 - Critical thinking and Problem-solving
 - Documentation

Technical Skills

- Python, CAD Design, 3D-Printing, AI/ML, MS Office tools, and Data analysis.

LANGUAGE

English: Proficiency in Writing, Speaking, Reading, Listening.
