Skills & Competencies

Customer Service Orientation.

Critical Thinking & Problem-Solving.

Time Management: Efficient in handling multiple tasks.

Regulatory & Safety Compliance: Knowledge of health and safety regulations.

Computer literate: Proficient in Microsoft Word and Excel.

Communication: Effective communicator fluent in English and Kiswahili.

Am adaptable, committed and dynamic.

Good researcher in biomedical field.

Technical Documentation: Skilled in maintaining service logs and compliance records.

Basic Networking & Equipment Integration – Familiar with integrating medical devices.

WATSON KIPYEGON KOECH

PROFESSIONAL SUMMARY

Dedicated and proactive Biomedical Engineer with hands-on experience in medical equipment maintenance, installation, and calibration within both public and private healthcare settings. Skilled in reducing equipment downtime, streamlining inventory management, and enhancing patient safety through precise technical interventions. Proven success in supporting high-dependency units like radiology, ICU, and dialysis with effective troubleshooting and compliance-focused servicing. Strong communicator with the ability to collaborate with medical teams, provide staff training, and ensure operational readiness. Committed to continuous learning and delivering quality biomedical solutions to improve healthcare delivery.

PROFESSIONAL EXPERIENCE

Biomedical Engineer
St. Luke Orthopedics and Trauma Hospital
December 2023 – Present

Key responsibilities

- *Streamline biomedical inventory management, reducing equipment misplacement by 25% and enhancing audit readiness.
- *Perform timely maintenance, diagnostics, and repairs on critical medical devices, decreasing equipment downtime by 30%.
- *Lead the installation and calibration of new biomedical equipment, boosting diagnostic capacity in the radiology and ICU units.
- *Provide hands-on technical training to over 20 clinical staff, promoting safe operation and first-line troubleshooting of high-use equipment.
- *Operate and maintain the C-ARM imaging system, ensuring high-quality imaging and strict compliance with radiation safety standards to improve intraoperative outcomes.

Biomedical Engineer (Volunteer)
Moi Teaching and Referral Hospital (MTRH)
September 2023 – December 2023

Key responsibilities

- *Conducted maintenance and repairs on over 40 medical devices, improving equipment uptime and reducing patient service delays.
- *Supported the installation of critical care equipment across dialysis and ICU units, contributing to expanded patient capacity.
- *Delivered timely technical support that minimized equipment-related disruptions in surgical and emergency departments.
- *Calibrated dialysis machines and ventilators, ensuring clinical accuracy and regulatory compliance, directly supporting safe patient care.
- *Assisted in resolving medical plumbing system issues, enhancing equipment cooling, drainage, and fluid delivery systems.

**Biomedical Engineering Intern
West Maternity Hospital – Eldoret
April 2023 – September 2023**

Key responsibilities

*Performed routine maintenance and repairs on diagnostic and monitoring equipment, improving operational efficiency and reducing equipment downtime.

*Supported the installation of new biomedical devices, including fetal monitors and infusion pumps, contributing to enhanced maternal and neonatal care.

*Provided timely technical support to clinical staff, resolving equipment issues promptly and ensuring uninterrupted patient services.

**Biomedical Engineering Attachee
West Maternity Hospital – Eldoret
May 2022 – August 2022**

Key responsibilities

*Shadowed senior biomedical engineers in troubleshooting equipment issues, gaining hands-on experience in diagnostic and therapeutic technologies.

*Assisted in the preventive maintenance and basic repair of medical equipment, helping reduce equipment failure during clinical procedures.

*Maintained records of equipment service and repairs, aiding in regulatory compliance and asset tracking.

EDUCATION

2019-2023 **Diploma in medical Engineering**

Kenya Institute of Applied Sciences

2012-2016 **Kenya Certificate of Secondary Education**

Roret Boys High School
