Education

DIPLOMA IN TEACHER TRAINER EDUCATION

KENYA SCHOOL OF TVET
AWAITING GRADUATION

BSC IN COMPUTER AND ELECTRONIC SYSTEMS

MOUNT KENYA UNIVERSITY
ONGOING

DIPLOMA IN MEDICAL ENGINEERING

MOUNT KENYA UNIVERSITY
2021-2024

COMPUTER APPLICATIONS

Bartek Institute Kabarnet
2019

KENYA CERTIFICATE OF SECONDARY EDUCATION(KCSE)

AIYEBO HIGH SCHOOL
2015-2018

Key Equipment handled

- Patient monitors
- Ventilators
- Anaesthesia machines
- Dialysis machines
- X-ray equipment
- Autoclaves
- Incubators

PERSONAL PROFILE

Electrical & Maintenance Technician with a Diploma in Medical Engineering and strong experience in equipment installation, preventive maintenance, and fault diagnosis. Skilled in troubleshooting electrical and mechanical systems across hospital and industrial settings, with foundational knowledge in PLC systems and industrial automation. Also a Technical Trainer, experienced in delivering practical training and mentoring learners in engineering fields. Detail-oriented and committed to equipment reliability and efficiency.

CAREER OBJECTIVE

- To secure a challenging position in a technical or industrial environment where I can apply my electrical, maintenance, and basic automation skills while gaining practical experience and contributing to efficient operations.
- To find a progressive position in an organization that offers vital experience so as to develop a successful career.

KEY COMPETENCIES

- Diploma in Bio -Medical engineering from Mt Kenya University
- 1 year experience, in a maintenance function in hospital industry. Demonstrated experience in Maintenance management.
- Excellent decision-making and planning skills. Good customer relation skills.
- Computer literacy skills with demonstrated knowledge
- Interpersonal and Communication skills: Excellent at one on one interaction, phone conversations and emails and can blend into any environment with sound excellent verbal and non-verbal skills
- Organization skills: Ability to work in a fast-paced environment and to deliver results in time

INTERESTS

Trending current affairs globally. Socializing
Travelling
Reading journals and publications.

PERSONAL ATTRIBUTES

- Young, energetic, Self-motivated and disciplined
- God-fearing with strong ethical values
- Excellent teamwork and communication skills
- Strong work ethic
- Quick learner and adaptable
- Team player with good interpersonal skills

WORKING EXPERIENCE

Technical Trainer – Electrical & ICT

2026 – Present

Okoa Humanitarian training college

- Train students in Electrical and ICT courses.
- Deliver both practical and theory lessons effectively.
- Guide learners in computer applications and electrical systems.

TECHNICAL & PROFESSIONAL SKILLS

- Electrical fault diagnosis and troubleshooting
- Preventive Maintenance (PPM)
- Motor control systems (contactors, relays, starters)
- Electrical wiring and panel safety practices
- Basic PLC knowledge (introductory level):
- Understanding of PLC architecture (inputs, outputs, CPU)
- Basic ladder logic concepts
- Familiarity with sensors and actuators integration
- Ability to assist in PLC fault identification and basic troubleshooting
- Industrial automation concepts (basic exposure)
- HVAC & refrigeration systems (basic exposure)
- Occupational Health & Safety (OHS) awareness
- Microsoft Word, Excel & PowerPoint

CERTIFICATIONS & TRAINING

- Medical Equipment Preventive Maintenance
- Electrical Safety & Basic Wiring
- HVAC & Refrigeration Systems
- Calibration of Medical & Industrial Equipment
- Occupational Health & Safety (OHS)
- Computer Applications

Language

- English
- Kiswahili

Maintenance Technician

Nov 2025 – Date

Insight Management – Assigned to Kenchik PLC

- Conduct preventive and corrective maintenance on production equipment and machinery.
- Diagnose and troubleshoot electrical and mechanical faults to minimize downtime.
- Inspect equipment regularly to ensure safe and efficient operation.
- Assist in installation, testing, and commissioning of equipment and systems.
- Maintain maintenance records and report equipment performance issues.
- Support production teams in achieving operational efficiency and productivity targets.
- Adhere to workplace safety, health, and environmental regulations.
- Collaborate with engineering and production teams during repairs and maintenance activities.

Cyber Attendant

Sept 2025 – Oct 2025

Digicloud Cyber & Computer college

- Create digital marketing materials including logos, banners, and brochures.
- Develop social media graphics to boost brand visibility.
- Apply Adobe Photoshop, Illustrator, and Canva in professional design
- Train computer classes.

Medical Engineering Intern

Sep 2024 – Sept 2025

AIC KIJABE HOSPITAL

- Performed preventive maintenance and repair of ICU and theatre equipment
- Assisted in troubleshooting electrical faults in medical devices
- Worked with automated systems incorporating sensors and control units
- Supported calibration and servicing of equipment
- Handled basic electrical checks including connections, power supply verification, and system functionality
- Assisted in HVAC and refrigeration systems maintenance
- Assisted in maintaining critical care equipment, helping ensure high equipment uptime and uninterrupted patient care services.

Practical attachment

May 2025 – August 2025

BARINGO REFERRAL HOSPITAL

- Gained hands-on experience in the maintenance, troubleshooting, and servicing of theatre equipment, renal equipment, radiology equipment, dental equipment, laboratory equipment, and hospital electrical systems.

LEADERSHIP & COMMUNITY SERVICE

Leadership & Community service

August 2023 – Date

FGCK Baringo Central Youth department –Secretary

- Coordinate youth programs, meetings, and community initiatives
- Support leadership planning, record keeping, and communication
- Promote discipline, teamwork, and positive values among youthk
