Nairobi, Kenya.

Personal statement

I aim at Professional excellence in my field of career –Biomedical Engineering. I have great interest in servicing, calibration and installation of medical equipment. Strong academic achiever with an excellent record, keen to pursue and gain more skills within engineering and innovations with a leading employer. I have in-depth knowledge and skills calibration and maintenance of machines and equipment.

Education

Diploma in Medical Engineering, Kenya Medical Training College.
Nairobi Campus.
2021– 2024

Certificate in Medical Engineering, Kenya Medical Training College.
Eldoret campus.
2019– 2021

St Mary's Mabera Girls High School
2013 - 2016
Kenya Certificate of Secondary Education.

Our Lady of Mercy Ibara Girls Primary
2005-2012
Kenya Certificate of Primary Education.

Experience

Microvision Enterprises Limited-technical engineer- 1st May2025 to March 2026

Duties

- Installation of medical equipment's
- Developing and executing PPM schedules
- Diagnosing and revolving complex board level faults in anaesthesia and dialysis equipment
- Conducting training sessions for nursing and medical staff on safe operation and daily care of installed equipment's

Internship MP shah Hospital 6th JAN- 5TH APRIL

Skills learnt include:

- Troubleshooting, repair and maintenance of medical equipment
- planning preventive maintenance schedule.
- Workshop organization.
- Daily checks for critical machines.
- Evaluate the safety efficiency and effectiveness of biomedical equipment

Attaché -Kenyatta University Teaching and Referral Hospital - SEP 2022 – NOV 2022

Attached to the Biomedical Engineering Department where I was introduced to various hospital departments and medical equipment and understood the relevant functions.

Skills learnt include:

- Repair and maintenance Refrigeration and air conditioning
- Repair and maintenance of Medical diagnostic equipment.
- Repair and maintenance of Laboratory equipment
- Repair and maintenance Dental equipment
- Repair of maintenance of Central steam sterilization equipment

Attaché • Nyamira County Referral Hospital APR–MAY 2021

Attached at the Medical Engineering department where I learnt to perform different functions like repairing, calibrations and installations.

Skills learnt include:

- Repair and maintenance Refrigeration and air conditioning
- Repair and maintenance of Medical diagnostic equipment.
- Repair and maintenance of Laboratory equipment
- Repair and maintenance Dental equipment
- Repair of maintenance of Central steam sterilization equipment
- Medical gases
- Repair of maintenance of Theatre equipment

Attaché • Kisii Teaching and Referral Hospital APR – MAY 2019

Attached at Medical Engineering department where I learnt to perform different functions like repairing, calibration, servicing and installation of medical machines

Skills learnt include:

- Repair and maintenance Refrigeration and air conditioning
- Repair and maintenance of Medical diagnostic equipment.
- Repair and maintenance of Laboratory equipment
- Repair and maintenance Dental equipment
- Repair of maintenance of Central steam sterilization equipment
- Medical gases
- Repair of maintenance of Theatre equipment
