RE: APPLICATION FOR THE POSITION OF TECHNICAL SALES ENGINEER

Dear Hiring Manager,

I am writing to express my interest in the Technical Sales Engineer position at Accord Medical Supplies Ltd. As a Biomedical Engineering graduate from Kenyatta University with a Second-Class Upper Division and practical experience in medical device development, equipment testing and, user training, I am excited about the opportunity to contribute my technical expertise and customer-focused approach to your organization.

Through my experience at Goned Pharmaceuticals, I participated in the development and testing of medical device prototypes, calibration of sensors and electronic modules, technical documentation, and user training. I was also involved in identifying prospective clients and supporting product demonstrations, which strengthened my ability to communicate technical concepts to both technical and non-technical audiences.

In addition, my training at Kenyatta University Teaching, Referral and Research Hospital (KUTRRH) and Aga Khan University Hospital exposed me to a wide range of medical equipment and healthcare environments. I gained hands-on experience in equipment installation, preventive maintenance, troubleshooting and calibration, which enabled me to understand the operational challenges faced by hospitals.

I am particularly drawn to Accord Medical Supplies because of its commitment to providing quality medical solutions to healthcare institutions. I am eager to contribute my technical knowledge, strong communication skills, problem-solving abilities, and enthusiasm for learning while building long-term relationships with clients and supporting the growth of the company.

I would welcome the opportunity to discuss my qualifications further. Thank you for your time and consideration. I look forward to the possibility of contributing to your team.

Yours sincerely,

Salome Wambui Njoroge
