The Hiring Manager
ACCORD

Dear Hiring Manager,

RE: APPLICATION FOR TECHNICAL SALES ENGINEER

I am writing to express my interest in the Sales Representative position at ACCORD. I hold a Diploma and Certificate in Medical Engineering and have gained valuable experience in both sales and technical support within the healthcare industry.

Currently, I work as a Sales Representative at Hospital Warehouse, where I am involved in customer engagement, product promotion, sales generation, and maintaining strong client relationships. This role has strengthened my communication, negotiation, and customer service skills.

Additionally, I previously worked as a Medical Engineer at Einst Biosolutions, where I handled medical imaging equipment. This experience gave me a strong understanding of medical products, healthcare environments, equipment applications, and client support.

My combination of sales experience and technical knowledge enables me to effectively understand customer needs, provide suitable solutions, and build lasting professional relationships. I am confident that I can make a positive contribution to your sales team.

I would appreciate the opportunity to discuss how my skills and experience align with your organization's needs. Thank you for your time and consideration.

Yours sincerely,

JOYCE WANJIRU KIARIE
