Hiring Team,
Accord Medical Supplies Limited.

Re: Application for Technical Sales Engineer

Dear Hiring Team,

I am writing to apply for the Technical Sales Engineer position at Accord Medical Supplies Limited. I hold a Bachelor's degree in Biomedical Engineering and bring hands-on experience positioning technical products to clinical decision-makers, communicating their value clearly, and building the kind of trust-based relationships that long-term sales depend on the combination your role calls for.

In my internships at Kenyatta National Hospital and Aga Khan Hospital, Mombasa, I worked directly with technical sales engineers, clinicians, and hospital administrators, the same audience Accord's sales team engages daily. I regularly presented technical information on equipment capabilities and compliance requirements to non-technical stakeholders, and trained clinical staff on safe equipment operation. That experience sharpened the presentation and persuasion skills needed to position a product against a client's specific operational needs, not just describe its specifications.

I am genuinely drawn to sales as a discipline: I enjoy the process of understanding what a client actually needs, addressing their hesitations, and matching the right solution to their context, something I practiced constantly while explaining equipment trade-offs to hospital staff with competing priorities and limited budgets. I am also comfortable engaging across departments and seniority levels, having coordinated with 5-person clinical and IT teams to resolve equipment integration issues, which required negotiation and clear follow-through to keep all sides aligned.

I am equally open to traveling and developing new business in new regions. I have separately reached out to researchers and institutions to build new professional relationships, the same initiative I would bring to identifying and developing new accounts for Accord.

I would welcome the opportunity to bring this combination of technical grounding and client-facing drive to your sales team, and to discuss how I can contribute to Accord's growth in more detail.

Thank you for considering my application. I look forward to hearing from you.

Sincerely,

Mercy Njeri Kimaru
