

CURRICULUM VITAE

PERSONAL DETAILS

ANTONY ORODI MUBWEKA

CELL: 075876494, 0103534926,
0708389694

D.O.B: 2/2/1994

ID NO: 32827256

NATIONALITY: KENYAN

EMAIL: antonyorodi981@gmail.com

MARITAL STATUS: ENGAGED

SEX: MALE

LANGUAGES: KISWAHILI, ENGLISH

ACADEMIC QUALIFICATION

2019 – Kenya Medical Training College, Nairobi

Diploma in Medical Engineering Technology

2015: Arise and Shine Computer College

Certificate in Merit in Computer Office Packages

2011-2014: Student at Emusire High School

2007-2010: Pupil at SpringBoard Academy

20002-2006: Pupil at Mundika Boys Primary School

PROFILE

Career Objective: To champion in maintenance, installation, repair, troubleshooting, calibration, and service of Therapeutic & Diagnostic medical equipment and general maintenance including household appliances, electrical installation and plumbing.

Personal Attributes

- Good interpersonal skills
- Team working skills
- Good communication skills
- Accountability
- Integrity
- Self-driven

CAPABILITIES

General Capabilities

- Service and maintenance of cooling systems
- Service and maintenance of ICT hardware
- Plumbing
- Carrying-out minor repairs of health facilities and utilities

Therapeutic and Diagnostic Equipment

- Maintain and repair medical equipment.
- Ordering spare parts and consumables
- Taking/maintaining medical/hospital equipment, furniture, and plants
- Install and service medical equipment.
- Troubleshooting and calibration of medical equipment.
- Carry out planned preventive maintenance of medical equipment.
- Implementing medical engineering programs and projects
- Train clinicians and other personnel on the proper use of medical equipment
- Train students on the applications and use of various medical equipment.
- Work with clinicians to research biological systems and apply that knowledge to new medical procedures.

Repair and maintenance of household equipment

- Structural maintenance and repair
- Service and repair of household appliances

WORK EXPERIENCES

August 2025-Todate: Freelancer

Field biomedical engineering technologist as a freelancer at Royal Victoria Hospital, Sadik Medicare, Luanda Wayside Dental Clinic, Dental Spring's Clinic, Star Annex Hospital, Bluemax Hospital and Across Highway Medicare, in all the health facilities, I am working on both diagnostic and therapeutic equipment. Am offering the following services; calibration, repair, maintenance, troubleshooting, service, planned preventive maintenance (ppm) and training the clinicians on proper use of medical equipment

February 2025-June 2025: Biomedical Engineering Technologist at Ack Maseno Mission Hospital

ROLES

General repair and maintenance

- Assembling of beds
- Repair and maintenance of wheelchairs
- Electrical installation
- Repair and maintenance of kitchen equipment

- Repair and maintenance of laundry equipment
- Maintenance and repair of air conditioners
- Refrigeration and air conditioning
- Fixing of door locks
- Maintenance and repair of compressors
- Painting of corroded and rusted medical equipment
- Labelling of patient bed sheets and curtains
- Maintenance and repair of bedside cabinets.
- Plumbing and correcting leaking water systems.

Generator Maintenance

- Daily inspection and recording of generator readings
- Fueling of the generator
- Checking oil level and topping up to the right level
- Adding water to the generator coolant
- Dusting the generator and the generator building (powerhouse)

Therapeutic and Diagnostic Medical Equipment

In the following hospital departments Theatre, Maternity, Dental unit, Physiotherapy, Laboratory, Radiology, Newborn unit, Central Sterilization Service Department (CSSD), General wards, and Out Patient Department I did the following;

- Maintenance and repair
- Installation and service
- Calibration and Troubleshooting
- Training of clinicians on the proper use of various medical equipment
- Training of students on attachment on application, proper use, repair, service, installation, maintenance, troubleshooting, and calibration of medical equipment.

ACHIEVEMENTS

I was able to achieve the following

- Repair of Theatre operating lamp which was not working for long
- Repair Oxygen concentrator disposed of
- Repair of the Dental chair which was not working
- Repair suction machines disposed of
- Corrected the electrical system which had a longtime fault.
- Fresh installation and extensions of electrical system in the hospital.

**January 2024-February 2024: Biomedical Engineering Technologist at PMI-KINGA
MALARIA (INDOOR RESIDUAL SPRAYING)**

ROLES

- Training of sprayer operators on proper handling of sprayer pumps.
- Repair of sprayer pumps
- Calibration of sprayer pumps.
- Making requisitions of spare parts of sprayer pump.
- Service and troubleshooting of sprayer pumps.
- Stock taking of sprayer pumps at before and after daily exercise of spraying.
- Maintenance of sprayer pumps especially planned preventive maintenance.
- Supervising of triple rinsing exercise after field work to ensure sprayer pumps are washed properly.

**October 2021 – June 2022: Biomedical Engineering Technologist - KILUNGU SUB
COUNTY HOSPITAL**

A nine-month contract to undertake repair and maintenance of hospital infrastructure, diagnostic and therapeutic equipment.

ROLES

General repair and maintenance

- Assembling of beds
- Repair and maintenance of wheelchairs
- Electrical installation
- Repair and maintenance of kitchen equipment
- Repair and maintenance of laundry equipment
- Maintenance and repair of air conditioners
- Refrigeration and air conditioning
- Fixing of door locks
- Maintenance and repair of compressors
- Painting of corroded and rusted medical equipment
- Labelling of patient bed sheets and curtains
- Maintenance and repair of bedside cabinets.
- Plumbing and correcting leaking water systems

Generator Maintenance

- Daily inspection and recording of generator readings
- Fueling of the generator
- Checking oil level and topping up to the right level
- Adding water to the generator coolant
- Dusting the generator and the generator building (powerhouse)

Therapeutic and Diagnostic Medical Equipment

In the following hospital departments Theatre, Maternity, Dental unit, Physiotherapy, Laboratory, Radiology, Newborn unit, Central Sterilization Service Department (CSSD), General wards, and Out Patient Department I did the following;

- Maintenance and repair
- Installation and service
- Calibration and Troubleshooting
- Training of clinicians on the proper use of various medical equipment
- Training of students on attachment on application, proper use, repair, service, installation, maintenance, troubleshooting, and calibration of medical equipment

ACHIEVEMENTS

I was able to achieve the following

- Repair junk of broken flow meters disposed of
- Repair Oxygen concentrator disposed of
- Repair the operating table which always inconvenienced medical procedures due to overdue service
- Painted and brought back to Wards disposed of bedside patient cabinets
- Corrected the electrical system which had a longtime fault.
- Fresh installation and extensions of electrical system in the hospital.

October 2020 – June 2021: Oxygen Plant Operator at HEWA TELE LTD

From October 2020 to June 2021, I worked at Hewa Tele Limited Company located in Mama Lucy Kibaki Hospital on locum as plant operator/ loader and my duties were as follows;

- Production of Medical Oxygen
- Facilitating the delivery of Oxygen to health facilities.
- Help clients fix Oxygen accessories such as flow meters.
- Daily maintenance of the Oxygen plant (cleaning).
- Writing delivery books for clients.
- Reading plant parameters if they ok.
- Inspect cylinder status.
- Training clients on proper handling of medical oxygen cylinders and oxygen accessories

September 2019 – October 2020: Biomedical Engineering Internship at MAMA LUCY KIBAKI HOSPITAL

I did my internship as a Biomedical Engineering Technologist at Mama Lucy Kibaki Hospital.

ROLES

General Hospital Maintenance

This included;

- Installation of air conditioners
- Refrigeration and air conditioning
- Assembling of beds
- Repair of laundry and kitchen equipment
- Repair and maintenance of wheelchairs and trolleys
- Electrical installation
- Serviced compressor
- Fixing of door locks

Therapeutic & Diagnostic Medical Equipment

For Therapeutic and Diagnostic Medical equipment in the following hospital departments; Theatre, Maternity, Dental unit, Eye clinic, Laboratory, Radiology, Newborn unit, Central Sterilization Service Department (CSSD), General wards and Out Patient Department I did the following;

- Maintenance and repair
- Installation and service
- Calibration and Troubleshooting
- Training of clinicians and students on attachment on proper use and application of various medical equipment.
