

MASIKA SIMIYU KELVIN

Medical Engineer

Tel: +254 708 752813 / +254 742 370735

Email: kelvinmasika243@gmail.com

CAREER PROFILE SUMMARY

A dedicated and ambitious Engineering professional with hands-on experience in the maintenance, repair, and installation of biomedical equipment. Skilled in diagnosing technical faults, collaborating with multidisciplinary teams, and ensuring optimal equipment functionality in healthcare settings. Proficient in technical problem-solving, communication, and project management, with a strong commitment to delivering quality healthcare solutions through innovative engineering practices. Seeking an opportunity to contribute technical expertise to improve medical equipment performance and healthcare delivery systems.

EDUCATION BACKGROUND

- **Bachelor of Science in Medical Engineering** – Technical University of Mombasa, Mombasa, Kenya, Sep 2018 – May 2025.
- **Kenya Certificate of Secondary Education** – Chesamisi Boys High School, Kenya, Jan 2014 – Nov 2017

KEY SKILLS AND COMPETENCIES ACQUIRED

- **Technical Expertise:** Skilled in maintenance, installation, and troubleshooting of medical devices and equipment.
- **Problem-Solving:** Proficient in diagnosing faults and implementing effective solutions.
- **Client and Team Collaboration:** Experienced in working with hospital teams to ensure seamless equipment operations.
- **Attention to Detail:** Strong focus on accuracy and quality assurance in equipment maintenance.
- **ICT Competence:** Proficient in Microsoft Office tools, data analysis, and basic programming for automation systems.
- **Adaptability:** Quick to learn and apply new medical technologies and engineering processes.
- **Communication Skills:** Capable of explaining complex technical information in clear and understandable terms.
- **Inventory Management:** Experience in managing spare parts and maintaining detailed records.

WORK HISTORY

Freelance Engineer

Self-employed – Mombasa, Kenya, Dec 2025 – Present

Duties and Responsibilities:

- Installation of CCTV systems and electric fences for residential and commercial clients.
- Repair and servicing of medical equipment including diagnostic and therapeutic devices.
- Conducting preventive maintenance to ensure reliability and safety of systems.
- Providing technical support and consultation to healthcare facilities and private clients.
- Sourcing, assembling, and testing components for biomedical and electrical projects.

Medical Engineering intern

Likoni Sub-county Hospital – Mombasa, Kenya, Aug 2025 – Nov 2025

Duties and Responsibilities:

- Conducted routine checks and diagnostics on medical equipment to ensure optimal performance.
- Performed repair and troubleshooting tasks under supervision.
- Assisted in installing new medical devices and ensured proper calibration.
- Maintained comprehensive records of maintenance and repair activities.
- Collaborated with hospital staff to ensure seamless operations of medical machinery.

Industrial Attaché

Pandya Memorial Hospital – Mombasa, Kenya, Sep 2024 – Dec 2024

Duties and Responsibilities:

- Conducted routine maintenance and calibration of medical equipment to ensure optimal functionality.
- Assisted in diagnosing and troubleshooting technical faults in medical devices.
- Participated in the installation and commissioning of new biomedical equipment.
- Collaborated with medical staff to address equipment-related concerns effectively.
- Maintained detailed records of equipment performance, repairs, and servicing schedules.

Industrial Attaché

Kilifi County Referral Hospital – Kilifi, Kenya, Oct 2023 – Dec 2023

Duties and Responsibilities:

- Conducted routine checks and diagnostics on medical equipment to ensure optimal performance.
- Performed repair and troubleshooting tasks under supervision.
- Assisted in installing new medical devices and ensured proper calibration.
- Maintained comprehensive records of maintenance and repair activities.
- Collaborated with hospital staff to ensure seamless operations of medical machinery.

Medical Engineering Volunteer

Likoni Sub-county Hospital – Mombasa, Kenya, Oct 2021 – Dec 2021

Duties and Responsibilities:

- Assisted in routine maintenance and repair of hospital medical equipment.
- Conducted basic troubleshooting for medical devices.
- Supported the installation and calibration of new medical equipment.
- Managed inventory of spare parts and maintenance tools.
- Participated in the development of preventive maintenance schedules.

Community Health Supervisor
Ministry of Health – Kenya, March 2021
Duties and Responsibilities:

-
- Conducted health outreach and awareness programs in local communities.
 - Assisted healthcare professionals in basic disease prevention campaigns.
 - Collected and documented health-related data from the community.
 - Facilitated communication between healthcare providers and community members.

PERSONAL INTERESTS

-
- **Innovation in Healthcare Technology:** Passionate about developing cost-effective medical devices.
 - **Research and Development:** Interest in exploring new technologies for improving healthcare systems.
 - **Networking:** Building strong professional relationships within the engineering and healthcare fields.

REFEREES

Mr. John Fredrick Muthuri

Medical Engineer, Pandya Memorial
Hospital
