OBJECTIVE

Detail-oriented Quality Assurance with experience in regulated medical device and diagnostic manufacturing, combined with advanced academic training in biotechnology and clinical research. Skilled in QC/QA operations including SOP development, in-process checks, batch documentation, and deviation reporting. Hands-on experience in projects with international regulatory and donor agencies (WHO, USAID, PATH, CDC). Passionate about ensuring product safety, regulatory compliance, and continuous process improvement in African health systems.

SKILLS & ABILITIES

Quality Assurance & Compliance: SOP Development and Implementation, Risk Assessment and Management.

Microbiology & Molecular Biology: Microbial Culturing and Identification, Antibiotic Sensitivity Testing, PCR and DNA Sequencing, Chromatography Purification Techniques.

Biomanufacturing & Process Optimization: Vaccine Upstream Processes (cell culture, bioreactor operations), Downstream Process (Purification), Process Optimization and Scale-Up, Environmental and In-Process Monitoring.

Research & Data Analysis: Data Management and Statistical Analysis (Excel, SPSS, R Studio, Power BI), Scientific Writing, Documentation, and Reporting, Problem Solving and Analytical Thinking.

Leadership & Project Management: Cross-Functional Collaboration and Team Coordination, Project Planning, Tracking, and Execution, Strong Communication and Organizational Skills.

EXPERIENCE

Quality Assurance Officer

Revital Healthcare (EPZ) Ltd, Kenya

Oct 2025 – Apr 2026

- Ensuring compliance with ISO 13485, GMP, and WHO PQ requirements in diagnostic manufacturing.
- Conducting in-process and final product quality checks for RDTs and medical devices.
- Reviewing and verifying SOPs, batch records, validation documents, and CAPA reports.
- Supporting internal audits, process validations, and regulatory inspections.
- Collaborating with R&D and Manufacturing teams to maintain product quality and regulatory compliance.

R&D Executive (Diagnostics Division)

Apr 2025 – Sep 2025

Revital Healthcare (EPZ) Ltd, Kenya

- Participated in the end-to-end development of diagnostic tests—from concept, design, prototyping, to production scale-up.
- Conducted quality checks and performance evaluations during RDT production.
- Led preparation of documentation and specimen logistics for WHO Prequalification (PQ).
- Worked closely with R&D, Manufacturing, QA, and Regulatory teams to streamline product development processes and address non-conformities.

Research Associate

Jan 2024 - Apr 2024

Forest Research Institute, Dehradun, India

- Analyzed species distribution changes due to climate impact using Arc GIS and R Studio.
- Presented data-driven insights through reports and presentations.

Research Associate

July 2021 - Oct 2021

American University of Ras Al Khaimah, UAE

- Maintained animal cell cultures and conducted MTT, DNA/RNA isolation, PCR, and cell viability assays.
- Utilized fluorescence imaging and collaborated on experimental design.

Production & Quality Operations

Julphar Gulf Pharmaceutical Industries, Ras Al Khaimah, UAE

May 2021 - Jul 2021

- Contributed to end-to-end pharmaceutical manufacturing processes, including research & development coordination, formulation, quality assurance, and packaging operations.
- Assisted in monitoring production workflows to ensure compliance with GMP standards and regulatory requirements.
- Supported quality control testing, documentation review, and batch record verification to maintain product integrity and safety.

EDUCATION

Education	Institution	Location	Duration
M.Sc. Biotechnology	Christ (Deemed to be University), Bangalore, India	Bangalore, India	2022 - 2024
B. Sc. Biotechnology (Cell & Molecular Biotechnology)	American University of Ras Al Khaimah, UAE	Ras Al Khaimah, U.A.E	2018 - 2022

ADDITIONAL CERTIFICATION

Course	Institution	Location	Duration
Advanced PG Diploma in Clinical Research.	Clini Launch Research Institute (CLRI)	Bangalore	2024

WORKSHOPS & CERTIFICATIONS

- 2025 Africa Biomanufacturing Workforce Training and Skill development program at CSIR, South Africa
- Member of Life Science Association at Christ (Deemed to be University), 2022-2024
- Skills Development Program on Bioinformatics Applications' - Christ University, 2023
- IP Awareness/Training program under the National Intellectual Property Awareness Mission (NIPAM) at Christ University, 2023
- Completed a certificate course on SPSS - Christ University, 2022-2023
- Completed an Industrial Training Program - Julphar Gulf Pharmaceutical Industries, 2021

PROJECT

- Determination of antagonistic characteristics of isolates from mangrove soil samples against *Staphylococcus aureus* and *Staphylococcus epidermidis*.
- Modelling the impact of climate change on the potential distribution of valuable plant species in the Uttarakhand Himalayan Region of India.
