Hiring Manager
Medical Equipment Company
Kenya

Dear Hiring Manager,

I am writing to express my strong interest in the Technical Sales Engineer position. With 18 months of hands-on experience in laboratory equipment operations and a solid foundation in direct sales, I am well-positioned to deliver technical expertise, build lasting client relationships, and drive revenue growth in the medical device and healthcare technology sector.

My technical foundation is rooted in direct laboratory experience with medical and analytical instruments—including PCR machines, centrifuges, gel electrophoresis systems, and microscopy equipment. This hands-on expertise enables me to understand customer pain points, speak credibly about product specifications and capabilities, and position medical devices based on genuine customer needs. I have demonstrated strong problem-solving and analytical skills by troubleshooting equipment challenges, optimizing laboratory workflows, and maintaining rigorous quality assurance standards.

My sales acumen is grounded in direct experience building customer relationships, identifying market opportunities, and communicating value propositions effectively. I bring natural communication and presentation abilities, combined with excellent negotiation skills. I am self-motivated, results-oriented, and adaptable in dynamic environments. My proven ability to collaborate across teams, combined with my commitment to continuous learning, positions me to excel as a trusted technical consultant who can guide healthcare institutions toward solutions that enhance their operations.

I am excited about the opportunity to leverage my technical knowledge and sales expertise to support your organization's growth while delivering exceptional value to healthcare customers. I am confident in my ability to meet sales targets, build strong client partnerships, and contribute meaningfully to your team. I would welcome the opportunity to discuss how my background aligns with your needs. Thank you for considering my application.

Yours sincerely,

Nancy Mogoi
