

CURRICULUM VITAE

MUMBI BEATRICE WAMBUI

P.O BOX 1112 -10100, NYERI

Tel +254 708- 013-229

Email: mumbibeatrice37@gmail.com

PROFILE SUMMARY

Results- driven and detail -oriented engineer in Bio- medical engineering. Adept at solving complex engineering problems and implementing innovative solutions that drive efficiency and improve performance.

ACADEMIC QUALIFICATIONS

2023- 2025: Kilifi KMTC: -DIPLOMA IN MEDICAL ENGINEERING

2020- 2022: Kilifi KMTC: - CERTIFICATE IN MEDICAL ENGINEERING

2019: Dandora Holy Cross: - Computer Packages

2015- 2018: Gaikundo Secondary School: - Kenya Certificate of Secondary Education

2007- 2014: Gaikundo Primary School: Kenya Certificate of Primary Education

PROFESSIONAL WORK EXPERIENCE

PCEA TUMUTUMU HOSPITAL JULY 2025 TO PRESENT

BIO-MEDICAL ENGINEER (INTERNSHIP)

Duties and responsibilities

- Actively participating in the daily operations of the medical engineering department, ensuring optimal functionality of critical hospital equipment.
- Conducting routine preventive maintenance (PM) on a wide array of medical devices, including patient monitors, infusion pumps, surgical instruments, and basic diagnostic equipment.

- Assisting senior engineers in complex corrective maintenance procedures, diagnosing faults, and replacing defective components to minimize equipment downtime.
- Maintaining accurate records of equipment service history, calibration data, and repair logs using hospital management systems.
- Collaborating with clinical staff to understand equipment needs, provide technical support, and offer basic user training on device operation and safety protocols.
- Gaining in-depth exposure to hospital safety standards and regulatory compliance related to medical devices.

STAR SPECIALIST HOSPITAL -SEP 2024-NOVEMBER 2024

BIO-MEDICAL ENGINEER (ATACHEE)

Duties and Responsibilities

- Carried out basic equipment calibration under supervision.
- Equipment fault diagnosis and repair.
- Cleaning and calibrating medical devices.
- Recording maintenance logs, service reports and calibration data.

Internship | Medical Engineering Department

NAKURU PGH - FEB 2022 – APRIL 2022

BIO-MEDICAL ENGINEER (ATACHEE)

Duties and Responsibilities

- Assisted in preventive and corrective maintenance of medical equipment's.
- Equipment fault diagnosis and repair.
- Troubleshoot and repair malfunctioning equipment to minimize downtime and maintain high standards of patient care.

NYERI PGH – SEP 2021 – OCT 2021

BIO-MEDICAL ENGINEER (ATACHEE)

Duties and Responsibilities

- Install, maintain, and calibrate medical equipment to ensure it operates efficiently and accurately.
- Perform routine inspections and preventative maintenance on medical devices and systems.

- Troubleshoot and repair malfunctioning equipment to minimize downtime and maintain high standards of patient care.

TECHNICAL SKILLS

- Bio-Medical equipment maintenance, troubleshooting and calibration.
- Understanding of medical device regulation.
- Team collaboration in clinical and research environments.
- Effective communication and technical writing skills.
- Time management, self –discipline and attention to detail.
- Problem-solving and analytical thinking in engineering applications.
- Adaptability and eagerness to learn new biomedical technologies.

REFEREES

1. Name: Mr. Onyikwa Mosota
Position: Deputy Principal KMTC
Phone: 0785858029
Email: Omosota@kmtc.ac.ke
2. Name : Peter Wachira Miugo
Position: Senior medical engineering technologists
Phone: 0721268117
Email: pmiugo@gmail.com
3. Name: Anthony Nyamu
Position: Hod Medical Engineering
Phone: 0716567868
Email anthonynyamu@gmail.com
