☎️ +20 100 986 3013

I am a biomedical engineer, a graduate of the Faculty of Engineering, Mansoura University, with a very good grade. I have extensive experience in maintaining medical equipment in hospitals, particularly in healthcare settings. I also possess excellent communication, organizational, and problem-solving skills, as well as strong sales skills, including achieving targets and ensuring customer satisfaction, gained through a significant period of experience in sales..

PROFESSIONAL EXPERIENCE

Sales Engineer | Misr Medical For Ultrasound Machines

March 2023 – July 2023

- Responsible for the Delta region. I present the company's ultrasound machines to doctors in clinics and hospitals..

Maintenance Engineer | ITMCO Eng. Essam Mandour

May 2023 – November 2023

- Trained in electronic circuit design and control systems, with hands-on technical and engineering skills in soldering, measurement, troubleshooting, and modifying medical devices, including adding and integrating new stages/modules.
- Gained practical training on medical equipment including centrifuges, autoclave sterilizers, neuromuscular stimulators, electrical massage devices, Doppler systems, ultrasound machines, and phototherapy units..

Maintenance Engineer | Air Force General Hospital

March 2025 – March 2026

- Worked in medical equipment maintenance, with a focus on critical care devices, including mechanical ventilators such as Dräger and Maquet systems.
- Also experienced in the maintenance and troubleshooting of infusion pumps, syringe pumps, defibrillators, patient monitors, ECG machines, and hemodialysis systems from manufacturers such as Gambro and Fresenius.

EDUCATION

Bachelor of Biomedical Engineering

Mansoura University, / Graduated July 2024 with grade **Very Good**.

- **Graduation Project:** Electrooculography (EOG) and diagnostic analysis of the results using a machine learning model, with general grade **Excellent**
- **Relevant Coursework:** Delta Company for Engineering Training in electronics, with general grade Excellent.

SKILLS

- Solid experience in medical and electronic equipment maintenance
- Strong persuasion and negotiation skills
- Proficient in Microsoft Word and Microsoft Excel
- Strong presentation and communication skills
- Fast learner with a high level of motivation
- Collaborative team player with a positive attitude

CERTIFICATIONS

- Marketing Professional Course– American Chamber of Commerce in Egypt - September 2021.
- Attending Biomedical Engineering Conferencet – Mansoura University – March 2023.
