

Florence Atieno Ouma

Biomedical Engineer

✉ florenceatieno199@gmail.com

☎ 0759434874 📍 Nairobi, Kenya

Profile

Biomedical Engineer with a year of experience in designing and manufacturing biomedical engineering equipment. Proficiency in using computer programs such as MATLAB and AutoCAD. Dedicated team player with an aptitude for developing new clinical equipment.

Education

Diploma in Biomedical engineering,
Kenya medical Training College
2019 – 2022

Certificate in Biomedical Engineering,
Kenya medical Training College
2017 – 2019

Certificates

- Certificate in Computer Applications and Graphic design

Agakhan University Hospital Nairobi

Professional Experience

Bio engineering Technician(Volunteer-ship), *Homabay Referral Hospital*
02/2023 – present | Homabay

- writing reports and documentation
- undertaking relevant research.
- liaising with medical, engineering, and scientific staff.
- maintaining equipment
- designing, developing, testing, and modifying products, equipment, and devices
- Providing technical support for biomedical equipment

Biomedical engineer(internship), *Agakhan University Hospital*
01/2022 – 12/2022 | Nairobi

- Installing and calibrating biomedical machines, equipment, and software.
- Evaluating the safety, efficiency, and effectiveness of biomedical machines, equipment, and software.
- Providing technical support, when needed.
- Maintaining and repairing biomedical machines and equipment, when needed.
- Researching new materials, technologies, and engineering aspects of biological processes and systems.
- Writing reports and documents detailing protocols, policies, standards of use, maintenance, and repairs of biomedical equipment, machines, and software.
- Disseminating knowledge about the biomedical engineering field through writing, teaching, or consulting.

Lab technician, *Mama Lucy Kibaki Hospital (Attache)*
01/2021 – 11/2021

- Receive, label, and analyze samples (blood, toxic, tissue, etc.)
- Design and execute laboratory testing.
- Adhere to standard procedures.
- Observe and interpret research findings.
- Conduct experiments.
- Organize and store all chemical substances.

Machine operator(Attachment), *Kenyatta National Hospital*
01/2019 – 12/2019 | Nairobi

- Set up machines (calibration, cleaning, etc.) to start
- Control and adjust machine settings (e.g.

- Inspect parts with precision and measuring tools
- Test operation of machines periodically
- Fix issues that might occur during the shift
- Check output to spot any machine-related mistakes or flaws
- Keep records of approved and defective units or final products
- Maintain activity logs
