

MILINGO EMANUEL SAFARI

Biomedical Engineer | Medical Equipment Maintenance, Troubleshooting & Technical Support

Nairobi, Kenya

Phone: +254 790 261 181

Email: emanuelmilingo7@gmail.com

LinkedIn: [linkedin.com/in/emanuel-milingo-70b883242](https://www.linkedin.com/in/emanuel-milingo-70b883242)

PROFESSIONAL SUMMARY

Biomedical Engineering graduate with hands-on experience in medical equipment maintenance, troubleshooting, calibration, and technical support within hospital environments. Experienced in supporting diagnostic, therapeutic, and patient monitoring systems to ensure equipment reliability, safety, and continuity of patient care. Skilled in fault diagnosis, preventive maintenance, equipment installation, commissioning, and clinical user support. Strong technical background in biomedical instrumentation, embedded systems, and healthcare technology, with a strong interest in Clinical Engineering, Technical Support, and Field Service Engineering within the healthcare technology sector.

TECHNICAL SKILLS

- Medical equipment maintenance, servicing, and repair.
- Preventive maintenance and equipment calibration.
- Biomedical instrumentation troubleshooting.
- Installation and commissioning of medical equipment.
- Patient monitoring systems support.
- Fault diagnosis and corrective maintenance.
- Technical documentation and service reporting.
- Healthcare technology management.
- Data analysis and problem solving.

PERSONAL ATTRIBUTES

- Strong analytical and problem-solving skills with the ability to diagnose and resolve technical issues efficiently.
- Detail-oriented and committed to maintaining high standards of equipment safety, quality, and reliability.
- Effective team player with strong communication skills and the ability to work collaboratively with healthcare professionals.
- Adaptable, self-motivated, and committed to continuous learning in biomedical engineering and healthcare technology.

PROFESSIONAL EXPERIENCE

Biomedical Engineering Intern

Pandya Memorial Hospital | April 2026 – Present

- Perform preventive maintenance, calibration, and repair of medical equipment to ensure optimal functionality and patient safety.
- Diagnose and resolve faults in diagnostic, therapeutic, and patient monitoring devices.
- Support installation, testing, and commissioning of medical equipment.
- Respond to equipment breakdowns in critical clinical areas and assist in restoring service availability.
- Collaborate with clinicians and nursing staff to ensure proper equipment operation and user support.
- Maintain maintenance records, service reports, and equipment documentation in accordance with hospital procedures.
- Participate in equipment inspections and performance verification activities.

Biomedical Engineering Attachment

Moi Teaching and Referral Hospital | May 2024 – July 2024

- Performed preventive maintenance and corrective maintenance on various medical devices.
- Assisted in calibration and performance testing of biomedical equipment.
- Conducted troubleshooting and fault diagnosis activities.
- Supported equipment inspections and technical documentation.
- Worked closely with biomedical engineers in maintaining equipment reliability within clinical departments.

Biomedical Engineering Attachment

Moi Teaching and Referral Hospital | May 2023 – July 2023

- Assisted in maintenance and servicing of diagnostic and patient care equipment.
- Participated in equipment inspections and repair activities.
- Supported fault identification and corrective maintenance procedures.
- Gained practical exposure to hospital biomedical engineering operations.

Technical Support Attachment

Technical University of Mombasa | June 2022 – August 2022

- Assisted in installation and maintenance of laboratory and technical equipment.
- Supported troubleshooting and operational testing of equipment.
- Ensured equipment readiness for teaching and laboratory activities.

Total Industrial Training Experience: 28 Weeks.

EDUCATION

Bachelor of Technology in Medical Engineering, Second Class Honours (Upper Division)
Technical University of Mombasa

Relevant Areas of Study,

- Biomedical Instrumentation.
- Medical Imaging Systems.
- Clinical Engineering.

- Healthcare Technology Management.
- Medical Electronics.

Kenya Certificate of Secondary Education (KCSE)

Maseno School

Grade: B+

Kenya Certificate of Primary Education (KCPE)

Hill School

Grade: B+

PROFESSIONAL MEMBERSHIPS & CERTIFICATIONS

Association of Medical Engineering of Kenya (AMEK) Registered and Active Member

Membership No. M2787

2026 – Present

PROJECT EXPERIENCE

Smart Bedsore Prevention Mattress

- Designed and developed an IoT-based smart bedsore prevention system for healthcare environments.
- Integrated ESP32 microcontroller technology with temperature monitoring functionality.
- Implemented automated patient repositioning using servo motor control.
- Developed a GSM-based alert mechanism for caregiver notification.
- Designed a monitoring and display interface for real-time system feedback.
- Focused on improving patient comfort and reducing the risk of pressure ulcers in immobile patients.
