

Farhan Ehsan Khan

03172328656 | ehsanfarhan979@gmail.com | [Linkedin](#)

Education

-Bachelor's in Biomedical Engineering | NED University of Engineering and Technology

2022 -2026

Work History

Sales engineer | Universal Enterprises

Jan 2026 - Ongoing

- Worked as a Biomedical Engineer handling radiology products.
- Met with hospital heads and biomedical departments to discuss technical specifications and product requirements.
- Provided technical guidance and assisted in product selection for hospital equipment

Intern – Neurocomputation Lab, NED University of Engineering & Technology

July 2025 - Aug 2025

- Gained hands-on experience with advanced neurocomputational and biomedical tools, including EEG, Xsens motion capture, Quantum Glove, and Humac Tec modular components.
- Assisted in research projects involving neuroimaging, motion analysis, and AI-driven biomedical applications.
- Collaborated with lab mentors and team members to design experiments and analyze data, enhancing practical understanding of neurocomputational methods.
- Applied theoretical knowledge of Artificial Intelligence and Biomedical Engineering to real-world research scenarios.

Sales and Service Engineer Intern | Medequips SMC

Mar 2025 – Apr 2025

- Sales & promotion techniques.
- Products demonstration and training.
- Maintenance and servicing of biomed. Equipment Troubleshooting of medical device

Internship Trainee | Jinnah Postgraduate Medical Centre

Aug 2024 - Aug 2024

- Gained practical and theoretical knowledge of medical equipment.
- Performed hands-on interaction and familiarization with devices.
- Conducted observations, testing, and troubleshooting of equipment

Biomedical Equipment Intern | Abbasi Shaheed Hospital

Feb 2024 - Apr 2024

- Gained practical as well as theoretical information of medical equipment.
 - Hand to Hand interactions with medical equipment.
 - Observations and troubleshooting.
-

SKILLS

- Microsoft PowerPoint (PPT), Microsoft Excel, MATLAB, Canva designing & presentation
 - AI Applications in Biomedical Engineering
 - Biomedical Equipment Troubleshooting
 - Medical Device Sales & Technical Support
 - EEG & Neurocomputation Systems
 - Hospital Equipment Handling & Demonstration
 - Research & Experimental Analysis
 - Biomedical Signal Processing
 - Problem Solving & Technical Communication
-

CERTIFICATE

- Attended 1st–5th International Biomedical Conference (IBDC) as Volunteer Head
 - Co-Head of American Society at NED University of Engineering & Technology, organizing technical and social events
 - Participated in KIET MUN, engaging in political debates and public speaking sessions
 - Managed event coordination, team leadership, and technical event operations
 - Active involvement in student leadership and professional networking activities
-
