

NANCY MOGOI

nancymogoi27@gmail.com | +254 742 346 188 | Nairobi, Kenya

PROFESSIONAL SUMMARY

Laboratory assistant with 18 months of hands-on experience in life sciences research and laboratory equipment operations, combined with foundational sales and customer engagement skills. Over the past years, I have gained applied research experience at ICIPE (International Centre of Insect Physiology and Ecology). Skilled in mosquito sampling and rearing, taxonomic identification, molecular laboratory processes, mosquito data collection, microscopy and statistical analysis. Proven ability to translate field-level biological observations into structured, policy-relevant outputs. Results-oriented professional with natural communication abilities, problem-solving mindset, and commitment to supporting healthcare institutions and driving business growth.

PROFESSIONAL EXPERIENCE

Laboratory Technologist and Research Assistant

Mbita – ICIPE, Kenya | 01 Feb 2025 – 31 Mar 2026

- **Technical Equipment Expertise:** Operated and maintained laboratory instruments including PCR machines, centrifuges, gel electrophoresis equipment, and microscopy systems, developing comprehensive understanding of medical device specifications, operation, and performance optimization.
- **Product Knowledge & Technical Communication:** Gained in-depth knowledge of laboratory protocols, equipment capabilities, and technical requirements; effectively communicated complex scientific procedures to team members and researchers, building foundation for technical customer consultations.
- **Quality Assurance & Customer Solutions Mindset:** Maintained rigorous quality standards in laboratory operations, identified equipment performance issues, and recommended solutions—skills directly applicable to understanding healthcare provider requirements and positioning suitable medical device solutions.
- **Data Analysis & Problem-Solving:** Conducted statistical analysis, troubleshoot technical challenges, and developed solutions to operational problems, demonstrating analytical capabilities essential for understanding customer pain points.
- **Relationship Building & Collaboration:** Worked effectively with researchers, supervisors, and cross-functional teams, building strong relationships while supporting diverse project objectives.
- **Documentation & Compliance:** Maintained meticulous records and adhered to laboratory standards, demonstrating commitment to the precision and compliance critical in healthcare industries.

Laboratory Research Intern

Mbita – ICIPE, Kenya | 10 Aug 2024 – 01 Feb 2025

- Supported laboratory operations including equipment operation, sample analysis, and protocol execution
- Prepared laboratory reagents and solutions to specification
- Collaborated with research teams and assisted in experimental setup

EDUCATION

Bachelor of Science with IT – (Zoology & Botany)

MASENO UNIVERSITY | Kenya

Relevant Coursework: Molecular Biology, Genetics, Microbiology, Cell Biology, Ecology, Biostatistics

CORE COMPETENCIES

Laboratory Equipment Skills | Customer Relationship Management | Product Presentations | Problem-Solving & Analytical Skills | Communication & Presentation Skills | Quality Assurance & Compliance | Data Analysis | Team Collaboration | Self-Motivation | Results-Oriented Mindset | Organizational & Time Management Skills | Willingness to Travel | Continuous Learning

TECHNICAL SKILLS & TOOLS

Software & Analysis: Microsoft Excel, R (Statistical Analysis), SPSS, Microsoft Office Suite

Laboratory Equipment Knowledge: PCR machines, Centrifuges, Gel electrophoresis systems, Microscopy equipment, Sample analysis instruments

Domain Knowledge: Life Sciences, Laboratory Operations, Biomedical Research

PROFESSIONAL DEVELOPMENT & ADDITIONAL EXPERIENCE

Customer Engagement & Sales Foundation: Prior experience in direct sales and customer relationship management, developing foundational skills in communication, customer needs identification, and business development. Natural aptitude for identifying customer requirements and positioning products/solutions to meet market needs.
