The HR Manager
Accord Medical Supplies Limited

RE: APPLICATION FOR TECHNICAL SALES ENGINEER POSITION

Dear Hiring Manager,

I am writing to express my keen interest in the Technical Sales Engineer position advertised by Accord Medical Supplies Limited. As a final-year Bachelor of Science student in Electrical and Electronics Engineering at South Eastern Kenya University, with hands-on technical experience and a strong passion for applying engineering knowledge in a commercial and client-facing environment, I am confident I would be a valuable addition to your team.

My engineering background provides a strong technical foundation relevant to the biomedical and medical equipment sector. During my industrial attachment at Kenya Broadcasting Corporation (KBC), I worked extensively with sophisticated electronic and signal processing systems, gaining deep exposure to equipment operation, maintenance, and troubleshooting. Prior to this, I completed an attachment at Kenya Power and Lighting Company (KPLC), where I was involved in technical operations including SCADA systems, transformer maintenance, and high-voltage transmission infrastructure. These experiences have sharpened my ability to understand complex technical systems and communicate their value clearly — a skill directly transferable to technical sales.

Beyond my technical expertise, I bring strong communication, presentation, and interpersonal skills that I have developed through team leadership roles, volunteer teaching in science and mathematics, and participation in industry events such as the International Microwave and Antennas Symposium 2025. I am a motivated self-starter who thrives in dynamic environments, and I am genuinely excited by the opportunity to explore new regions, build client relationships, and develop new business opportunities — as outlined in your vacancy requirements.

I am particularly drawn to Accord Medical Supplies Limited because of your commitment to delivering quality medical solutions and your reputation for excellence in the healthcare sector. I am eager to leverage my technical knowledge to position your products effectively to clients, understand their needs, and provide solutions that make a real difference in healthcare delivery. I am willing and ready to travel and work across different regions to grow the business.

I have attached my CV for your consideration and would welcome the opportunity to discuss how my skills and enthusiasm align with your team's goals. Thank you for your time and consideration.

Yours sincerely,

Kutner Ivet Atieno
