The Hiring Team
Accord Medical Supplies Ltd
Nairobi, Kenya

Re: Application for Technical Sales Engineer

Dear Hiring Manager,

I am writing to express my interest in the Technical Sales Engineer position at Accord Medical Supplies Ltd. I bring a strong clinical nursing background combined with proven sales experience; a combination I believe is genuinely well suited to helping your team build trust with hospitals, clinics, and laboratories while growing the business.

I hold a Bachelor of Science in Nursing from Dedan Kimathi University of Technology, and my career has been built around hands-on clinical and hospital administration work. As Nurse Officer Interns Coordinator at Chuka County Referral Hospital, I worked closely with hospital departments and coordinated clinical staff across busy ward environments. As Nurse and Administrative Support at Flodder Medical Centre, I supported both direct patient care and the administrative side of running a medical facility. I also served as a Nurse Tutor at Chuka Kenya Medical Training College, where I taught and assessed nursing students on clinical procedures, including the correct use of medical equipment and devices in patient care. This combination of bedside, administrative, and teaching experience has given me a deep, practical understanding of how hospitals and clinics select, operate, and rely on the kind of medical equipment Accord Medical Supplies provides, and of the real priorities of the doctors, nurses, and administrators who would be your customers.

Alongside this clinical foundation, I currently work as a Sales Representative and Financial Advisor at SimplePay Capital Limited, where I identify new business opportunities, build client relationships from the ground up, and consistently work toward sales targets. This role has sharpened my communication, negotiation, and relationship-building skills, and given me genuine confidence engaging decision-makers and explaining the value of a product or solution clearly and persuasively.

My academic qualification is in nursing rather than biomedical or medical engineering, and I want to be upfront about that. What I do bring is years of direct, practical exposure to medical equipment and healthcare environments from the clinical side, paired with demonstrated sales ability – a foundation I believe translates strongly into this role. I am a fast learner, self-motivated, and ready to invest in mastering your full product range so I can represent it confidently and credibly to healthcare institutions.

I am based in Nairobi's wider Kiambu-Wangige area and am willing and able to travel to explore new territories and business opportunities as the role requires. I would welcome the opportunity to discuss how my background can contribute to Accord Medical Supplies' continued growth.

Thank you for considering my application. I have attached my CV for your review and look forward to the possibility of speaking with you further.

Yours sincerely,

Sammy Njenga Mburu
