

IVY CHEBET LETTING

Nairobi, Kenya | +254 743 737 227 | chebetivy24@gmail.com

PROFESSIONAL SUMMARY

Dedicated and detail-oriented Medical Engineer with strong knowledge of biomedical equipment maintenance, troubleshooting, calibration, and healthcare technology systems. Skilled in preventive and corrective maintenance, equipment installation, safety compliance, and technical support within hospital environments. Passionate about improving patient care through reliable medical technology and efficient engineering solutions.

PROFESSIONAL EXPERIENCE

Sales Engineer

August 2025 – Present

LifeTech Solution

- Promoted and marketed medical devices and advanced healthcare technology solutions to clinical and hospital stakeholders.
- Provided comprehensive technical product demonstrations, presentations, and consulting to prospective healthcare clients.
- Collaborated with engineering and procurement teams to deliver customized technical solutions that meet specific hospital requirements.
- Managed key accounts and delivered exceptional pre-sales and post-sales technical and commercial support.

Biomedical Technician

Feb 2025 – Jul 2025

Ziwa Sub-County Hospital

- Performed preventive and corrective maintenance on medical equipment.
- Assisted in installation, testing, and commissioning of biomedical devices.
- Diagnosed and repaired equipment faults to minimize downtime.
- Maintained maintenance records and technical documentation.
- Worked with healthcare staff to ensure proper equipment operation.

Medical Engineer Intern

Nov 2024 – Feb 2025

Mathare National Teaching and Referral Hospital

- Facilitated technical workshops for nursing and clinical staff.
- Performed preventive servicing and emergency repairs on biomedical equipment.
- Assisted in troubleshooting and calibration of hospital biomedical devices.

Biomedical Engineer Attachee

2022 – 2023

National Spinal Injury Referral Hospital

- Assisted in monitoring medical gas systems and oxygen concentrators.
- Supported troubleshooting of life-support and diagnostic equipment.
- Helped reduce equipment downtime through timely technical interventions.

Biomedical Engineer Attachee

2021 – 2022

Kapsabet County Referral Hospital

- Assisted in maintenance of hemodialysis machines and water treatment systems.
- Verified operational safety of anesthesia machines and autoclaves before surgical procedures.

TECHNICAL SKILLS & EQUIPMENT HANDLED

Tools & Systems: Multimeters, Safety Analyzers, Oscilloscopes, Medical Lasers, Infusion Pumps, Physiotherapy Equipment, Medical Gas Systems.

Key Equipment: Patient Monitors, ECG Machines, Defibrillators, X-Ray, Ultrasound, Ventilators, Autoclaves, Suction Machines, Laboratory Equipment.

EDUCATION

Diploma in Medical Engineering | Kenya Medical Training College **2023**

KCSE Certificate | Tulon Secondary School **2018**

KCPE Certificate | Milimani Primary School **2014**

LANGUAGES & PERSONAL ATTRIBUTES

Languages: English (Fluent), Swahili (Fluent), German (Basic A1 Level). **Attributes:** Quick learner, Strong analytical skills, Professional, Team player.
