Medical Engineering Specialist | Medical Engineering Technologist

■ PROFILE SUMMARY

A dedicated Medical Engineering Technologist with a passion for designing and developing innovative medical engineering components. Skilled in analyzing and troubleshooting complex medical engineering problems, collaborating with cross-functional teams, and implementing cost-effective manufacturing processes. Reliable and dependable and often seek new responsibilities within a wide range of employment areas.

Offering established skills in technical operations, component development, simulation and valuation, expediting on work processes and the achievement of project goals.

■ PROFESSIONAL EXPERIENCE

Medical Engineering Technologist (Intern) | Mama Lucy Kibaki Hospital, March 2024 to Date.

- Installing mechanical systems, components, and machines.
- Installation, repair and maintenance of air conditioning and refrigeration system.
- Performing all duties of a medical and an electrical equipment technician.
- Installation of Medical equipment and device.
- Maintenance of all Medical and electrical systems.
- Calibration of all medical equipment.
- Servicing of medical equipment

Electrical Technician | Uhanga Enterprises Ltd, August 2023 to February 2024

- Installation, repair and maintenance of air conditioning and refrigeration system.
- Installation, repair and maintenance of security and alarm system.
- Installation, repair and maintenance of electrical system.
- Installation, maintenance and servicing of solar system.

■ PROFESSIONAL SKILLS

- Excellent communication and interpersonal skills.
- Flexible and adaptable to varying work environments
- Multi-tasking and Organizational skills.
- Excellent writing and speaking skills.
- Collaborative Good Team player
- Self-driven, initiative driven and proactive
- Excellent Planning skills
- Ability to remain calm under pressure and make decisions quickly.
- Attention to Detail and Accuracy
- Analytical and Critical Thinking
- Time Management and Prioritization
- Communication and Interpersonal Skills
- Adaptability and Flexibility
- Problem Solving and Decision Making
- Organizational and Planning Skills
- Financial Statement Preparation
- Computer-aided design (CAD) software proficiency
- Finite element analysis (FEA)
- Computational fluid dynamics (CFD)
- Material selection and analysis
- Manufacturing process optimization
- Equipment maintenance and troubleshooting
- Technical documentation and reporting
- Project management
- Safety and risk assessment
- Quality control and assurance
- Continuous improvement methodologies
- Lean manufacturing principles.

■ ACADEMIC BACKGROUND

2019- 2023: Diploma in Medical Engineering

Kabete National Polytechnic

2015-2019: Kenya Certificate of Secondary Education (K.C.S.E.)

Nyakoko Mixed Secondary School

■ PROFESSIONAL CERTIFICATIONS

Jan –April 2019

Certificate in Basic Computer Applications

Highway Computer Centre

■ REFEREES

1. Rebecca Mwengi

Medical engineer, Mama Lucy Kibaki Hospital.

Phone: 0729442175

Email:

rabeccamwengi@gmail.com

2. Charles Wariwa

Technical and operation director, Uhanga enterprises Ltd.

Phone: 0723 940 086

Email: cwariwa@gmail.com

3. Judith Akinyi,

Medical Engineer, Jaramogi Hospital.

Phone: 0719 795 330

Email: judithra012@gmail.com

4. Mr. George Ombok

Principle, Nyakoko Secondary school.

Phone: 0728 149 906

Email: georgeombok@gmail.com

Attache | Jaramogi Oginga Odinga Teaching and Referral Hospital May - August 2022

Installation, repair and maintenance of:

- Electrical and Electronics systems.
- Electronic security system.
- All Radiology equipment.
- Dental chairs.
- Hospital Plant and systems.
- Water systems.
- Refrigeration and air conditioning.
- Workshop procedures.
- Medical gas systems.
- Carrying out minor repairs of health facilities and utilities ordering for spare parts and consumable

Attache | Jaramogi Oginga Odinga Teaching and Referral Hospital April – Dec 2020

Installation, repair and maintenance of:

- Electrical and electronics system.
- Medical equipment and Laboratory equipment.
- Laundry equipment.
- Theatre equipment and Dental chairs
- Autoclaves.

Others

- Welding and fabrication. Undertaking medical equipment, plants, instruments and limited health facilities and utilities,
- Implementing medical engineering programs and projects,
- Providing user support, undertaking preventive maintenance and repairs of hospital equipment.
