

Moses Mutuku Mulobi

Nairobi, Kenya

+254 741 451 612 — mosesmutush7@gmail.com

Professional Summary

Results-driven multidisciplinary professional with experience spanning Software Engineering, Artificial Intelligence, Data Analytics, Customer Experience, Sales Operations, Market Research, and Secondary Education. Proven ability to develop technology solutions, deliver data-driven insights, support customer success initiatives, drive business growth, and facilitate learning. Skilled in software development, cloud technologies, CRM systems, analytics, stakeholder engagement, technical training, and business operations. Adept at working in both technical and customer-facing environments.

Core Competencies

Technology & Engineering

- Python, JavaScript, TypeScript, Java, SQL, C++, Go
- React, Next.js, React Native
- Node.js, Express.js, Flask, FastAPI
- REST APIs, GraphQL
- PostgreSQL, MySQL, MongoDB, Supabase
- AWS, Azure, Google Cloud Platform
- Docker, Kubernetes, Terraform, CI/CD
- Linux Administration

Artificial Intelligence & Data

- Machine Learning
- TensorFlow, PyTorch
- Hugging Face, LangChain, RAG
- Data Analytics and BI
- ETL Pipelines
- Apache Spark, Apache Kafka

Customer Experience & Sales

- Customer Relationship Management (CRM)
- Customer Success and Support
- Account Management
- Lead Generation and Market Expansion
- Business Development and Sales Operations
- Stakeholder Management and Retention

Education & Training

- Curriculum Development
- Classroom Management
- Mentorship
- Technical Training
- Coaching and Facilitation
- Performance Assessment

Professional Experience

Freelance AI Trainer/Software Developer

2025 – 2026

Remote Projects (Turing and Global Clients)

- Developed AI-powered applications using Python, LangChain, Hugging Face, and Large Language Models.
- Designed scalable backend systems and APIs for enterprise applications.
- Built machine learning and predictive analytics solutions.
- Developed ETL pipelines and data processing workflows.
- Collaborated with international teams to deliver production-ready software solutions.
- Implemented cloud-native architectures using AWS, Azure, and containerized deployment environments.
- Optimized application performance, scalability, and reliability through modern engineering practices.

Coding Instructor

2024 – 2025

Mwalimuplus Limited

- Delivered training in software development, web technologies, databases, and programming.
- Mentored learners in project development and software engineering best practices.
- Conducted code reviews and technical assessments.

- Assisted students in developing technical portfolios and career readiness skills.
- Facilitated practical workshops on full-stack development and software deployment.

Customer Experience Coordinator

2022 – 2024

Twiga Foods Limited

- Managed customer relationships and issue resolution processes.
- Coordinated communication between customers and internal departments.
- Generated operational and customer performance reports.
- Supported customer retention and service improvement initiatives.
- Maintained high levels of customer satisfaction through proactive engagement.
- Analyzed customer feedback to identify trends and recommend service enhancements.

Market Research Assistant

2021 – 2022

Twiga Foods Limited

- Conducted market surveys and field research activities.
- Collected, analyzed, and reported customer and market data.
- Supported business decision-making through actionable insights.
- Assisted with customer segmentation and territory analysis.
- Prepared reports and presentations for management review.
- Monitored market trends and competitor activities to support strategic planning.

BOM Teacher

2020 – 2021

Blessed Hands High School, Nairobi

- Taught Physics and Chemistry following the Kenyan secondary school curriculum.
- Prepared lesson plans, examinations, and assessment materials.
- Monitored student performance and implemented improvement strategies.
- Mentored students in academic and personal development.
- Participated in co-curricular and school development activities.
- Organized remedial programs to improve learner outcomes and examination performance.

BOM Teacher

2016 – 2017

Vota Secondary School, Machakos

- Taught Physics and Chemistry to secondary school students.
- Prepared and delivered curriculum-aligned lessons.
- Assessed student performance and provided academic guidance.
- Maintained classroom discipline and positive learning environments.
- Supported student mentorship initiatives.

Key Projects

Smart Learning Platform

- Developed a full-stack educational platform using Next.js, TypeScript, PostgreSQL, and Supabase.
- Implemented authentication, role-based access control, and real-time communication.
- Designed scalable backend architecture for multiple user roles.
- Integrated analytics and reporting features to support learning outcomes.

AI-Powered Predictive Analytics Platform

- Built machine learning pipelines for predictive insights and forecasting.

- Developed ETL workflows and reporting systems.
- Leveraged cloud infrastructure for scalability and reliability.
- Implemented data visualization dashboards for business intelligence reporting.

Cloud Desk

- Designed and deployed cloud-native services using Docker and modern DevOps practices.
- Implemented CI/CD pipelines and automated deployment workflows.
- Improved operational efficiency through infrastructure automation.
- Enhanced system monitoring, logging, and deployment reliability.

Education

Kenya Certificate of Secondary Education (KCSE) Machakos School Mean Grade: B+	2011 – 2014
Bachelor of Education (Science) Masinde Muliro University of Science and Technology	2017 – 2021
Certified Public Accountant (CPA), Sections I – II KCA University Examination Body: KASNEB	2020 – 2022
Software Engineering Certification ALX Africa in Partnership with Holberton University	2022 – 2024

Certifications

- IBM SkillsBuild AI Literacy Certification
- IBM SkillsBuild Data Literacy Certification
- Software Engineering Certification – ALX Africa / Holberton University
- CPA Sections I – II (KASNEB)

Achievements

- Successfully delivered AI and software engineering solutions for international clients.
- Trained and mentored aspiring software developers through structured learning programs.
- Contributed to customer retention and operational excellence initiatives in the FMCG sector.
- Developed scalable software systems leveraging modern cloud and DevOps technologies.

Additional Information

Languages: English (Fluent), Swahili (Native)

Availability: Open to Remote, Hybrid, and On-Site Opportunities

Professional Interests: Software Engineering, Artificial Intelligence, Cloud Computing, Data Analytics, Customer Experience, Technical Support, Sales Operations, Business Development, Education and Training.
