

JUSTINE MUTINDA MUTUNGA

P.O. BOX 299-30900, Wote, Kenya | 0768276774 | justinmutindays@gmail.com

PROFESSIONAL SUMMARY

An experienced Biomedical Engineer with a Diploma in Medical Engineering Technology. Expert in healthcare facility operations, responsible for installation, planned preventive maintenance (PPM), corrective maintenance, and quality assurance for a wide range of medical equipment. Highly skilled in providing technical support and willing to take on greater responsibilities to meet team goals.

TECHNICAL SKILLS & COMPETENCIES

- Analytical Problem-Solving: Identifying and resolving complex equipment malfunctions quickly to minimize downtime and ensure continuous patient care.
- Technical Precision & Quality Assurance: Ensuring all medical devices meet strict manufacturer and safety standards through rigorous inspections.
- Specialized Systems: Proficient in the installation and commissioning of Busch Medical Vacuum Systems and silver-brazed degreased copper piping.
- Renal & Life Support: Technical expertise in maintenance and repair for Fresenius, Nikkiso, and SWS-6000 dialysis machines, and Mindray SV 600 ventilators.
- Infrastructure & HVAC: Skilled in managing hospital medical plants, cold rooms, air conditioning, and refrigeration systems.
- ICT Proficiency: Utilizing digital tools to manage maintenance logs and track inventory.

PROFESSIONAL EXPERIENCE

Biomedical Engineer Intern | Pandya Memorial Hospital

January 2026 – ...

- Executed complete setup of Busch duplex vacuum plants and reticulation networks in compliance with HTM 02-01 standards.
- Performed routine maintenance and troubleshooting on Fresenius, Nikkiso, and SWS6000 dialysis machines.
- Conducted preventive maintenance for Mindray SV 600 ventilators and B. Braun Space Plus infusion systems.
- Assembled and installed specialized medical beds and ensured all mechanical/electronic adjustment features were operational.
- Strengthened practical experience in diagnosing and repairing therapeutic and diagnostic medical equipment.

Biomedical Engineer Attachee | Machakos Level 5 Referral Hospital

February 2025 – April 2025

- Gained technical experience in the maintenance of diagnostic equipment, including X-ray, laboratory, and dental units.
- Maintained central steam sterilization equipment to ensure clinical safety.
- Managed air conditioning and refrigeration systems and organized workshop operations for efficiency.
- Medical & Diagnostic Equipment: I have technical experience in the maintenance and functional understanding of diagnostic medical equipment like x-ray
- Laboratory & Dental Equipment: I possess practical knowledge in the upkeep and repair of specialized laboratory and dental equipment.
- Sterilization Systems: I am proficient in maintaining central steam sterilization equipment to ensure clinical safety

Biomedical Engineer Attachee | Chuka District Hospital

March 2023 – May 2023

- Proficiently performed diagnostic, repair, and preventative maintenance on a wide range of therapeutic medical equipment.
- Electrical Systems: I boosted practical experience in the installation and maintenance of electrical systems, power supply units, and machinery.
- Medical Equipment Maintenance: I am proficient in the diagnostic, repair, and preventative maintenance of a wide range of therapeutic and diagnostic medical equipment.
- Plant & Infrastructure Support: I manage the installation, repair, and ongoing maintenance of general facility infrastructure and specialized medical plant systems.
- Managed the installation and repair of specialized medical plant systems and hospital plumbing networks.
- Utilized welding and metal fabrication skills for structural repairs of equipment.

Biomedical Engineer Attachee | Mrima Maternity Hospital

September 2022 – November 2022

- Provided hands-on maintenance for operating theatre and CSSD machines.
- Managed facility electrical power supply, protection systems, and clinical waste.
- Supported clinical diagnostics through knowledge of ultrasound machine operational principles.
- Reduced dental operatory downtime by 20% through preventive maintenance and rapid repair of high-pressure compressors, central vacuums, and hydraulic delivery

PROFESSIONAL MEMBERSHIPS & CERTIFICATIONS

Reg no. (M2756) Association of Medical Engineering of Kenya (AMEK)

EDUCATION

Diploma in Medical Engineering Technology: Kenya Medical Training College (KMTC) – Loitoktok Campus (2023 – 2025).

Certificate in Medical Engineering Technology: Kenya Medical Training College (KMTC) – Makindu Campus (2021 – 2023).

Kenya Certificate of Secondary Education: Ngoto Boys High School (2017 – 2021).
