Eldoret,Kenya.

PERSONAL STATEMENT

I am self-driven, self-motivated and responsible individual with demonstrated capacity to provide healthcare service and improving patient care through the effective use of technology. I am also a hardworking person who can work well in a team as well as individually with little to no supervision needed once given proper guidance and seeking an entry-level position in the medical engineering field to apply my technical skills and knowledge gained through academic training and internships. My training has provided me with hands-on experience in the maintenance, calibration, and repair of medical equipment, as well as a strong understanding of biomedical instrumentation and healthcare technology management. I am committed to ensuring the safety and efficiency of medical devices, contributing to improved patient care, and continuously expanding my technical expertise.

EDUCATION

2021-2024. Kenya Medical Training College,
Diploma in Medical Engineering

2015-2018: Friends school Keveye Girls'
Kenya certificate of secondary Education

PROFESSIONAL EXPERIENCE

Kitale county hospital,Kitale,Kenya(March 2024-May 2024)

Medical Engineering

- Assisted in the maintenance and repair of medical equipment, ensuring all devices were functioning correctly and safely.
- Conducted routine inspections and testing of hospital machinery, adhering to safety and quality standards.
- Supported senior engineers in troubleshooting equipment malfunctions and performing preventative maintenance.
- Documented maintenance activities and updated equipment logs accurately.
- Collaborated with the biomedical engineering team to improve efficiency in hospital operations.

Reale Hospital, Eldoret, Kenya (Sept 2021- Oct 2021 & Feb 2022- April 2022)

Medical engineering

- Gained hands-on experience in the installation and calibration of medical equipment, including diagnostic machines and patient monitors.
- Participated in training sessions to learn about the latest advancements in medical technology.
- Worked alongside healthcare professionals to understand equipment usage and address any concerns or technical issues.
- Assisted in managing the hospital's inventory of medical equipment and spare parts.
- Provided support in emergency repairs, minimizing downtime of critical equipment.

SKILLS

- Medical equipment maintenance
- Excellent attention to detail and organizational skills.
- Biomedical instrumentation
- Ability to work independently and meet deadlines.
- Technical documentation

- Interpersonal and communication skills
- Customer service orientation
- Analytical and Problem solving skills
- Healthcare technology management
