The Hiring Manager,
Accord Medical Supplies,
Nairobi, Kenya.

RE: APPLICATION FOR THE TECHNICAL SALES ENGINEER POSITION

Dear Sir/Madam,

I am writing to express my strong interest in the Technical Sales Engineer position currently advertised at Accord Medical Supplies. As a Medical Engineering professional specializing in technical sales, market expansion, and B2B healthcare account management, I do not just understand how advanced diagnostic systems work, I know how to translate their clinical and technical specifications into financial and operational value for hospital decision-makers.

In my current role as a Technical Sales & Service Engineer at Radiotec Africa Limited, my primary focus is driving territory business development and managing corporate healthcare accounts. I routinely engage with hospital CEOs, procurement boards, clinical directors, and lead radiographers to understand their equipment challenges and deliver high-conversion product presentations. By blending my deep engineering knowledge with a consultative sales approach, I successfully lead capital equipment deal cycles from initial site surveys to commercial handover. Notably, I have directed the end-to-end deployment, user onboarding, and clinical sign-off of five premium Siemens CT Scanner installations in Nairobi and Mombasa, ensuring absolute client retention and brand loyalty.

Accord Medical Supplies has a stellar reputation for delivering cutting-edge medical equipment solutions across the region. Capital medical equipment sales require a professional who can speak the clinical language of a radiographer, the engineering language of a biomedical team, and the financial language of a hospital board. My hands-on experience troubleshooting, pitching, and deploying advanced modalities (including CT, MRI, CR/DR, and Ultrasound) allows me to handle objections effortlessly and shorten complex procurement lifecycles. Furthermore, I bring proven success in upselling aftermarket service level agreements (SLAs), transforming one-time sales into recurring revenue streams for the business.

I hold a Bachelor of Technology in Medical Engineering from the Technical University of Mombasa, giving me the technical foundation necessary to master Accord's product portfolio rapidly. I am eager to bring my aggressive lead generation mindset, client relationship management skills, and commercial drive to your sales team to help hit and exceed your corporate revenue quotas.

Thank you for your time and consideration. I look forward to an opportunity to discuss how my combined sales and technical skills can drive commercial growth for Accord Medical Supplies.

Yours sincerely,

Stephen Baraka Obondo
Technical Sales Engineer
