CAREER PROFILE SUMMARY

A highly skilled and dedicated professional with expertise in maintaining and managing medical equipment. Proficient in implementing planned preventive maintenance, conducting breakdown repairs, and ensuring the installation of new medical equipment according to manufacturers' guidelines. I am adept at performing calibration and electrical safety tests on medical devices. Skilled in maintaining accurate records of maintenance activities and monitoring critical equipment uptime. I possess excellent interpersonal skills and the ability to work independently, exhibiting strong leadership and visionary qualities. Demonstrates exceptional planning, time management, and organizational skills, consistently delivering results in a fast-paced environment.

EDUCATION BACKGROUND

- **Diploma in Technology Medical Engineering**-Technical University of Mombasa, Mombasa, Kenya; Sep 2020-Dec 2023

WORK HISTORY

Sales Administrator

The Hive Limited|September2024 to September2025

|Duties and Responsibilities:

- Delivered professional and efficient customer service by addressing client inquiries, providing product knowledge on honey and bee products, and guiding customers through the selection process to ensure satisfaction and repeat business.
- Consistently met and exceeded monthly sales targets through proactive client engagement, effective upselling strategies, and maintaining in-depth knowledge of all product lines including raw honey, beeswax, and related bee products.
- Managed and maintained accurate records of sales transactions, inventory levels, and bee product stock using PDQ (Point of Sale) systems, ensuring real-time data accuracy and minimizing discrepancies.
- Conducted comprehensive onboarding and training sessions for new staff on bee biology, honey production processes, hive management practices, and safe handling of bee products and equipment.
- Performed installation, routine inspection, and maintenance of beehives across multiple sites, ensuring structural integrity, colony health, and optimal conditions for honey production.
- Carried out systematic hive inspections to monitor colony strength, queen activity, pest and disease presence, and honey stores, documenting findings for management review.

- Processed and packaged bee products including raw honey, beeswax, and propolis in compliance with food safety and sanitation guidelines to maintain product integrity and customer confidence.
- Maintained comprehensive records of hive productivity, harvesting yields, product inventory, and sales data to support management decision-making and product traceability.
- Collaborated with team members to streamline workflow, improve operational efficiency, and enhance the overall customer experience in both retail and field settings.

Biomedical Engineering Attaché

Mama Lucy Kibaki Hospital (MLKH)|Sept 2022- Dec 2022| Duties and Responsibilities:

- Implemented and followed planned preventive maintenance schedules and participated in departmental quality improvement initiatives.
- Prepared and presented technical reports and conducted electrical safety tests on various equipments.
- Managed and resolved technical issues to ensure smooth project progression.
- Kept up to date with technological advancements in electronics while traveling and exploring technical sites and workshops.
- Understanding of cold room and maintenance of fridges and air conditioning units
- Ensured continuous learning in electronics and technology fields and learned new languages.
- Repaired and maintained medical equipment and carried out plant preventive maintenance of medical equipment.
- Maintained inventory and records of work done, spare parts, and machines and offered technical advice to immediate users of medical equipment.

CERTIFICATION & TRAINING

Siemens ACCUSON S2000 Ultrasound Training |Kenyatta University |

Dec 2022 Skills and Experience Gained:

- Participated in installation, setup, and performance testing of Siemens ACUSON S2000 ultrasound systems.
- Performed preventive maintenance, safety inspections, and basic troubleshooting of ultrasound equipment and transducers.
- Conducted image quality verification and system functionality checks to ensure diagnostic accuracy.
- Gained hands-on experience with 2D imaging, Color Doppler applications, and ultrasound system optimization.
- Assisted in equipment documentation, quality assurance procedures, and clinical workflow support.

**Fluke Biomedical Certification: Electrical Safety Testing and Analyzer
Operations | Fluke Advantage Training | Nov 2025 Skills and
Experience Gained:**

- Compliance and standards
- Safety Testing
- Diagnostics and Analysis
- Risk management

KEY SKILLS AND COMPETENCIES ACQUIRED

- **Certified Training:** calibration, servicing and troubleshooting of SWS 6000 and Nipro surdial x dialysis machine and Evita 800 ventilator
- **Technical Expertise:** Proficient in electrical wiring, installation, diagnostic tools, and troubleshooting techniques essential for medical equipment maintenance and repair.
- **Hands-on Experience:** Demonstrated ability in the maintenance and operation of critical healthcare systems, including hospital plant systems, HVAC systems and medical imaging devices.
- **Innovative Problem-Solving:** Capable of innovative solutions for equipment repair and maintenance, ensuring the optimal functionality of ICU, Theatre, Renal, and Laboratory equipment.
- **Collaboration and Communication:** Strong communication skills evidenced by successful volunteer experiences, facilitating teamwork and project efficiency.
- **Leadership and Self-Management:** Leadership roles in volunteer activities, showcasing the ability to lead, manage self, and drive projects to completion.
- **Adaptability and Creativity:** Creative and innovative approach to solving complex problems.
