Primary Education (407 Marks)

ABOUT ME

I am a results-driven professional with excellent communication, interpersonal, and customer care skills, able to build strong rapport with people from diverse backgrounds and work independently. I am highly skilled in planning and organization, effectively managing time, setting clear and defined objectives, and adapting to changing circumstances while meeting assigned goals. Above all, I am a proven team player and team builder, consistently supporting, recognizing, and acknowledging others' contributions, while delegating effectively and balancing multiple priorities.

WORK EXPERIENCE

Ellence Technologies

2023 - Present
Nairobi

BUSINESSMAN/SALES PERSON

I am a salesperson and service engineer at Ellence Technologies. We deal in laptop and phone sales and repairs, Electrical installations and repairs, and electrical equipment sales (cookers, televisions, microwaves, and other household equipment). We also import general goods and sell them to the general public. Every once in a while, I may be contacted by small health facilities to check on their machines and do planned preventive maintenance. My time here has been quite a rollercoaster. It has taught me the following:

- How to deal and interact with clients on a one-on-one basis and make sure they are satisfied.
- How to convert a passerby or walk-in client into a returning client.

SKILLS

Sales and Marketing - Retail

Communication skills

Troubleshooting and Repair

Electrical Installation

Microsoft Office

Programming

Photography and videography

Carpentry skills

HOSPITAL(MNTRH
)

Jan 2023 - Apr 2023
NAIROBI

The Nairobi
Hospital

Jan 2022 - Apr 2022
Nairobi

Kenyatta University
Feb 2021 - Apr 2021
Nairobi

- 3. Troubleshooting and repair of electrical equipment (medical equipment included)
- 4. How to generate and implement sales strategies to drive up sales.
- 5. Troubleshoot and repair laptops and phones
- 6. How to build strong client relationships through professional communication, active listening, and consistent after-sales support.

● INTERN

During the above-specified period, I was a Biomedical Engineering intern at The Mathari National Teaching and Referral Hospital .
During my stay at the hospital, I gained a lot of hands-on experience. My responsibilities included:

- 1. Assisting in the maintenance, troubleshooting, and repair of medical equipment.
- 2. Conducting routine inspections and calibrations.
- 3. Collaborating with the hospital’s clinical staff to ensure proper usage and functionality of medical devices.
- 4. Gaining exposure to the hospital’s procurement processes for medical equipment and ensuring adherence to technical specifications.
- 5. Contributing to the development of preventive maintenance schedules and assisting in the creation of technical documentation.

● INTERN

- I was an Intern at The Nairobi Hospital for the specified period.
- During this period, I worked with the available Biomedical technicians to:

- 1. perform PPMs on medical equipment.
- 2. Install and maintain medical equipment.
- 3. Set up machines to be used by patients.
- 4. General repair of medical equipment.

● INTERN

- During this period I got a chance to interact with the following areas.
- Domestic installation, Three-phase networks, CAD designs, Micro-controller technology, Three-phase motors Systems, and troubleshooting
