

Jusper Asumwa

Biomedical Engineering Professional · Technical Sales

+254 717 447 730 | jusperasumwa@gmail.com | Nairobi, Kenya

PROFESSIONAL SUMMARY

Detail-oriented professional with a background in biomedical engineering, technical sales, and hands-on AI tool usage. Experienced in evaluating information quality, writing structured analytical reports, and assessing the accuracy and clarity of complex outputs. Strong understanding of small business operations — from marketing to client management.

WORK EXPERIENCE

Technical Sales Representative

May 2025 – Present

Medix East Africa Ltd · Nairobi, Kenya

- Manage the full medical equipment sales cycle — prospecting, product demonstrations, tender preparation, and deal closing.
- Prepare and submit tenders and quotations for hospital and clinic supply contracts.
- Conduct fault diagnosis and planned preventive maintenance (PPM) on a wide range of medical equipment.
- Create and manage digital marketing content (social media, email campaigns) to generate qualified leads.
- Evaluate supplier proposals and product specifications to advise clients on procurement decisions — applying structured analytical thinking similar to AI response evaluation.

Creative Sales Representative

Feb 2025 – Apr 2025

Sanlam Insurance Company · Kenya

- Acquired new clients through targeted outreach, applying critical thinking to match products to prospect needs.
- Produced clear written communication materials and structured monitoring reports for assigned client portfolios. — Handled multi-step document management workflows using digital tools including spreadsheets and PDFs.

Biomedical Technician Intern

Mar 2023 – May 2023

Vihiga County Referral Hospital · Vihiga, Kenya

- Inspected, calibrated, tested, and maintained a broad range of biomedical equipment across hospital departments.
- Supported operation and maintenance of hospital standby generators, ensuring uninterrupted clinical operations. — Documented equipment service history and maintenance outcomes with a high level of accuracy and consistency.

Biomedical Technician Intern

Sep 2021 – Dec 2021

Kisii Teaching & Referral Hospital · Kisii, Kenya

- Studied and applied X-ray machine operating principles, electrical circuit theory, and motor configurations. — Operated precision engineering machinery including lathe, drilling, and milling machines.

Attachment Student

Nov 2021 – Dec 2021

Mama Lucy Kibaki Hospital · Nairobi, Kenya

- Coordinated preventive maintenance (PPM) schedules for medical equipment across all hospital departments.
- Maintained accurate documentation and repair history records — developed strong attention to structured data quality.

SKILLS

AI & Evaluation: AI Response Evaluation, Prompt Engineering, Chatbot Comparison, Quality Assessment, Structured Feedback

Critical Thinking: Business Analysis, Analytical Reasoning, Information Accuracy Assessment, Comparative Evaluation

Business Operations: Small Business Workflows, Market Research, Procurement, Client Management, Financial Documentation

Digital Tools: MS Excel, MS Word, MS PowerPoint, Google Workspace, Notion, Canva, Apollo.io, Email Octopus, Zapier

Content & Marketing: Visual Content Creation, Digital Marketing, Email Campaigns, Lead Generation, B2B Outreach

Technical: Entry Medical Equipment Maintenance, Biomedical Equipment Calibration, PPM, Fault Diagnosis, Data

Languages: English (Fluent) · Kiswahili (Fluent)

EDUCATION

Certificate & Diploma in Medical Engineering

Sep 2019 – Feb 2024

Kenya Medical Training College – Loitoktok Campus

2014 – 2018

Kenya Certificate of Secondary Education (KCSE)

Muhuri Muchiri Secondary School
