Phone No.: 0111688855

Email: kevinkipyegon2022@gmail.com

P.O. Box 1679 – 20200, Kericho, Kenya

## CAREER PROFILE

Biomedical Engineer with practical experience in installation, calibration, preventive maintenance, troubleshooting, and repair of medical equipment in hospital environments including Ventilators, Dialysis machines, Anesthesia machines, patient monitors, infant incubators, oxygen generation systems, theatre equipment, and physiotherapy devices.

## EDUCATION

Higher Diploma in Medical Engineering – Kenya Medical Training College (KMTC), Nairobi (Ongoing)

Diploma in Medical Engineering – Rift Valley Technical Training Institute (2019–2022)

KCSE – St. Augustine RC Kandege High School (2013–2018)

KCPE – Progressive Chepcheb Primary School (2004–2012)

## WORK EXPERIENCE

### **Higher Diploma Mentorship– Biomedical Engineering St. Mary's Mission Hospital, Lang'ata, Nairobi 2<sup>nd</sup> February 2026 – 29<sup>th</sup> May 2026**

- Performed Planned Preventive Maintenance, Calibration, Troubleshooting, and Electrical Safety Testing of ICU equipment including Ventilators (**Chenwei 3010A and Eternity Portable**), Blood Gas Analyzer (**Edan i15**), Patient Monitors, Infusion Pumps, Syringe Pumps, and Ultrasound systems (**Sonolite**).
- Diagnosed and resolved ventilator faults including low inlet pressure alarms, oxygen sensor calibration errors, compressor overheating, and cooling fan failures.
- Conducted preventive maintenance and functional testing of Theatre equipment including Anesthetic machines, Operating tables, Operating lamps, Diathermy units (**OBS-350A**), Autoclaves, Laparoscopy Towers (**Lariox**) and Infant Warmer (**Okuman OKM 730**).
- Performed calibration, leak testing, oxygen sensor verification, and breathing circuit checks on Anesthetic machine (**Mindray WATO X55, Siriusmed X45 and X50**).
- Participated in troubleshooting and fault diagnosis and repair of Gastrosopes (**Olympus**), surgical operating microscopes, and neonatal care equipment.
- Diagnosed and repaired Patient Monitors (**Yonker and Comen Star 8000F**), Suction Machines (**Hospivac, SM-200D and Impact 308 Series**), and dental units.
- Assisted in maintenance and performance verification of diagnostic and physiotherapy equipment like TENS AUTO MODE + ULTRASONIC machine

- Maintained maintenance records and collaborated with biomedical engineering personnel.

### **Higher Diploma Attachment – Biomedical Engineering Kapkatet Sub-County Hospital 6<sup>th</sup> October 2025 – 19<sup>th</sup> December 2025**

- Performed preventive maintenance, calibration, troubleshooting, and repair of ICU ventilators including **AJ-2292** and **Crius V6 models**.
- Diagnosed and resolved ventilator alarms related to pressure, tidal volume, PEEP, and sensor calibration faults.
- Conducted routine inspection and safety checks on Automated External Defibrillator like checking status indicator and replacing expired pads.
- Maintained theatre equipment including Anesthetic Machine (**WATO EX-20** and **GE Carestation 600 Series**) and electrosurgical diathermy units.
- Performed preventive maintenance on Infant Incubators (**ASCO** and **AP300 Plus**) and Bubble CPAP systems.
- Assisted in maintenance of Dialysis Machines (**SWS 4000A** and **Nipro Surdial 55 Plus**), RO water treatment systems, and oxygen plants (**NOVAIR PSA** and **Cryogenic Liquid Oxygen Production system**).

### **Biomedical Engineering Intern – Nairobi Hospital 2<sup>nd</sup> June 2024 – 30<sup>th</sup> August 2024**

- Performed calibration and maintenance of Ventilator Machine (**Puritan Bennett**) including flow and oxygen sensors,
- Assisted in troubleshooting Patient Monitors, ECG machines, Defibrillators (**DFM100**), Infusion pumps, and Syringe pumps (**Agilia model**).
- Worked with Dialysis Machines (**Surdial X NIPRO** and **B.Braun model**) including replacement of filters, valves, pumps, and flow sensors.
- Conducted calibration and performance verification using biomedical simulators **The Gas Flow Analyzers VT900A**.
- Participated in preventive maintenance of Anesthetic Machines (**Mindray**) like the leak tests and calibrations and other Theatre equipment like Diathermy machine and Laparoscopy Towers.

### **Medical Engineering Intern – Siloam Hospital, Kericho May 2023 – September 2023**

- Performed preventive maintenance on suction machines, Anesthetic machine(**Aeonmed 7200**), dental units, Buble CPAP machine and Ventilator machine (**CWH 3020B**)
- Assisted in ventilator calibration and equipment troubleshooting.
- Conducted maintenance of Dialysis Machine (**Gambro Ak 98**) and RO water treatment equipment, backwashing and disinfection.
- Participated in repair of dental units and air compressor systems.

## **Industrial Attachment – Kericho County Referral Hospital January 2021 – March 2021**

- Assisted in preventive maintenance and repair of biomedical equipment like Oxygen concentrators, patient monitors and Ultrasound equipment.
- Participated in installation and commissioning of medical equipment which included Electric bed and Suction machine.
- Provided technical support and equipment inspections for safety and effectiveness.

### **TECHNICAL SKILLS**

- Preventive Maintenance, Corrective Maintenance and Repair of medical equipments.
- Medical Equipment Calibration and Electrical Safety Testing
- Ventilator Maintenance and Troubleshooting and Anesthesia Machine Maintenance
- Dialysis Machine Maintenance, Reverse Osmosis Water Treatment Systems and Oxygen Plant and Medical Gas Systems Maintenance
- Technical Documentation and Reporting

### **CERTIFICATIONS & ACHIEVEMENTS**

- Kenya Skills Empowerment Certificate of Training
- Certificate of Participation – Feast of St. Anthony of Padua / Flag Day Collection
- Served as Head Boy, Progressive Chepchep Primary School

### **REFEREES**

Andrew Musambi – Biomedical Engineer, St Mary's Mission Hospital Lang'ata, Tel 072554561

Benard- Biomedical Engineer, Kapkatet Sub-County Hospital, Kericho, Tel 0725549023

Geoffrey Koskei - Lecturer in Engineering, RVTTI, Tel: +254 788 566656
