PERSONAL PROFILE

I am a motivated, adaptable, and detail-oriented Medical Engineer with a solid academic background in biomedical engineering and hands-on experience in medical equipment installation, troubleshooting, and maintenance. Over the years, I have built strong technical expertise in handling medical devices across various hospital departments, including Renal, Laboratory, Imaging & Diagnostics, and Operating Theatres.

I pride myself on being solution-driven, with a proven track record of resolving complex technical challenges, improving equipment uptime, and supporting healthcare delivery. I possess excellent communication, teamwork, and problem-solving skills, complemented by strong electrical and IT competencies. My goal is to contribute to advancing healthcare technology while continuously growing in my career as a biomedical engineering professional.

WORK EXPERIENCE

Medical Equipment Technician

Vital Mediquip Company | 2024 – Present

- Responsible for troubleshooting, repairing, and maintaining various biomedical equipment across multiple hospital departments.
- Successfully solved several complex medical device problems, ensuring continuity of healthcare service delivery.
- Provided technical support to healthcare professionals on the proper use and care of medical devices.
- Assisted in the installation and calibration of new medical equipment.
- Worked collaboratively with engineers and technicians to implement preventive maintenance schedules.
- Contributed to the supply and record management of medical devices to hospitals.

Key Achievements:

- Developed innovative solutions for recurring machine faults, reducing downtime by 30%.
 - Recognized as Employee of the Month for two consecutive months for outstanding technical performance and teamwork.
 - Trained new technicians on safety protocols and standard operating procedures for medical equipment maintenance.
-

EDUCATION

Diploma in Medical Engineering (2nd Class Upper Division)

Nyeri National Polytechnic | 2021 – 2024

Relevant Modules:

- Engineering Mathematics – 80%
- Clinical I & II – 85%
- Hospital Engineering – 75%

KCSE

Good Shepherd High School | 2016 – 2019

KCPE

Gilgil Garrison Primary School | 2007 – 2015

PROFESSIONAL SKILLS AND COMPETENCIES

- **Biomedical Engineering Competence:** Skilled in installation, maintenance, repair, calibration, and troubleshooting of biomedical devices.
 - **Hospital Departments Exposure:** Hands-on experience in Renal, Laboratory, Operating Theatre, Imaging, and Diagnostic departments.
 - **Electrical Competence:** Strong knowledge in electrical wiring, diagnostics, and fault finding.
 - **Technical Documentation:** Proficient in record management, service reporting, and maintaining technical logs.
 - **Digital Literacy:** Competent in MS Office Suite (Word, Excel, PowerPoint), digital systems, and internet-based operations.
 - **Communication Skills:** Excellent interpersonal and technical communication skills developed through teamwork and client support.
 - **Problem-Solving & Work Ethics:** Adept at resolving workplace challenges with professionalism and integrity.
-

INDUSTRIAL TRAINING & PROJECTS

- Assisted in preventive maintenance programs for hospital devices.
 - Carried out calibration and testing of hematology analyzers and imaging devices during practical sessions.
 - Participated in the installation of patient monitoring systems in a clinical setting.
 - Project: Designed a maintenance schedule framework that improved equipment uptime during training sessions.
-

HOBBIES AND INTERESTS

- Passionate about football; actively participates in team sports which enhance leadership and teamwork skills.

- Enjoys networking and engaging in community activities.
 - Interested in learning new medical technologies and keeping updated with advancements in biomedical engineering.
