Dear ,Hiring Manager

It is with great pleasure that I am applying for the biomedical engineering at your company

As a recent graduate of Ollessos technical training institute not only did I maintain excellent grades, but I was also a Captain of the foot team that won more games than any team in the past twelve years.

My background has required me to be a strong manager of my time to balance school and athletics, which I am confident, will be a quality that will be important in this position.

My years of working in a team environment, my strong competitive nature, as well as my success in leadership, are also qualities that I bring to my career.

As a chosen team leader, I had to listen, motivate, think creatively, and delegate so together my teammates and I could achieve success.

I have proven that I am passionate about what I do as well as dedicated.

My goal is to join a company where there is growth potential, so I am sure I can fulfill that need of yours.

My personality and competitive nature have made me realize that my skills will be beneficial in dealing with clients in sales.

I am extremely passionate about the work in this profession and would be ecstatic to share my skills and experiences with your exceptional team.

I appreciate your time and consideration and look forward to speaking with you soon.

sincerely ,Edicus Anyira
