PROFILE

I am a highly driven Medical Engineer and a proud graduate of the Technical University of Mombasa, where I earned my degree with Second Class Honors, Upper Division in Bachelor of Technology in Medical Engineering. My background combines rigorous technical training with a strategic mindset, allowing me to excel in complex engineering roles in hospitals and high-level management. With a versatile skill set, I am adept at leading teams as a Sales Manager to drive revenue growth within the healthcare technology sector. I also possess the analytical precision required to serve as an International Sourcing Manager, optimizing global supply chains for critical equipment., I am committed to delivering excellence and innovation. Further information can be accessed on [my portfolio.](#)

PROFESSIONAL EXPERIENCE

Sales Manager

- Lead a team of Villa Surgical sales reps
- Develop and implement sales strategies to meet and exceed monthly and annual sales targets.
- Build strong relationships with existing customers and key accounts
- Negotiate contracts and agreements with clients
- Prepare sales reports, performance analysis

Sales Representative

- Manage a portfolio of clients and develop new business relationships.
 - Present products and services to potential customers
 - Negotiate terms of sale and conclude contracts successfully.
 - Collaborate with internal teams to ensure customer satisfaction and resolve any issues.
 - Achieve and exceed assigned sales targets.
-

Medical Engineer

Equipment Lifecycle Management: Installation, calibration, preventative maintenance, and decommissioning of medical devices (e.g., MRI, CT scanners, ventilators).

Regulatory Compliance: Deep understanding of international standards such as ISO 13485 (Quality Management), ISO 14971 (Risk Management), and FDA/CE marking requirements.

Troubleshooting & Problem-Solving: Using analytical skills to diagnose complex electromechanical failures in high-pressure clinical environments.

Technical Design: Proficiency in CAD software (SolidWorks, AutoCAD) and programming languages (MATLAB, Python) for device optimization.

Clinical Fluency: The ability to speak the "language of medicine" with surgeons and clinicians while explaining technical specifications.

Supply Chain Resilience: Expertise in International Sourcing, including vendor evaluation, contract negotiation, and managing global logistics/tariffs.

Territory Management: Strategic planning to grow market share and manage client relationships within a specific geographic region.

Product Demo & Training: Educating medical staff on the safe and effective use of new technologies to improve patient outcomes.

Church Administrator / Secretary

Pastoral Support: Managing the Resident Pastor's diary, scheduling appointments, and handling confidential correspondence.

Documentation: Taking minutes during Board, Deaconship, or Workers' meetings and ensuring the church's "Administrative Policy Manual" is followed.

Member Records: Maintaining the church database, including New Converts' records, First Timers' data, and Water Baptism registers.

Service Coordination: Preparing the weekly "Worship Bulletin," announcement slides, and ensuring testimonies are properly documented for service.

Communication: Sending out bulk SMS or emails for mid-week services, special programs (like Shiloh), and WSF (Home Cell) meetings.

Facility Management: Overseeing the Sanctuary Keepers and maintenance teams to ensure the church building and "Covenant Rooms" are clean and functional.

Procurement: Sourcing and purchasing office supplies, communion elements, and maintaining inventory for the Dominion Bookstore.

Financial Liaison: Working with the Branch Treasury Committee to track utility payments, manage payroll for church staff, and ensure church accounts are ready for audit.

Logistics & Protocol: Coordinating transport and accommodation for visiting ministers and managing the church's vehicle fleet.

Compliance: Ensuring the branch adheres to the National and International Headquarters' administrative guidelines

Personal Details

Nationality: Kenyan

Gender: Male

Date of Birth: 22nd July 1998

Age: 27 years old (Married)

Religion: Christian

Phone No. 0708864062^[L]_[SEP]

Residence: Nairobi

EDUCATION

Technical University of Mombasa Bachelor's Degree (Sept. 2019-Dec.2023)

-Bachelors of Degree Technology in Medical Engineering with **(Second class honors upper Division)**

Winners Chapel International Campus Leadership Training Course (Sept 2020).

- Leadership Certificate Course.(credit)

-Leadership Diploma Course (credit)

Secondary Education (complete 2018)

- Mavusi Secondary School KCSE (**B plain Awarded**)

Primary Education (Complete 2012).

-Tande Primary School KCPE (320 Marks Awarded)

WORK HISTORY

JANUARY 2021-MARCH 2021: INDUSTRIAL ATTACHMENT AT TECHNICAL UNIVERSITY OF MOMBASA

-Enabled me to be confident, acquire practical skills and get exposure to real work situation and experience

JANUARY2022 -MARCH2022: INDUSTRIAL ATTACHMENT AT KAKAMEGA COUNTY GENERAL TEACHING AND REFERAL HOSPITAL.

-Installation, repair and maintenance of medical equipment.

-Electrical Wiring and installation of the Medical Equipment alongside with authorized Medical Engineers.

-Hospital plants and systems checkup and supervision in there working conditions

-ICU, Renal and Theatre equipment among others as directed and instructed by the Medical Departments involved.

MARCH 2022-2023: AIRLITE ENGINEERING COMPANY

-Working as an engineer at Airlite company in the field of electronics and designing plans for Air conditioner and cold rooms' installations.

-Providing work plan for the company

-Also I was helping in selling in their shops the electronic devices and equipment

JAN 2024-MARCH 2023: INDUSTRIAL ATTACHMENT AT MEWA DISTRICT HOSPITAL

-Make ward rounds and ensure all electrical equipment are in Good order by repair and installation.

-Advising and training of new developments in the bio med field and any other duty assigned by the Supervisor

-Refrigeration and Air conditioning (Cold rooms and Refrigerators)

-Ensure the best working condition of all the medical equipment and support where needed by nurses

(FEB 2024 -MAY 2024)-A FOUR MONTH CONTRACT AT BUTECH WATER TREATMENT COMPANY AS A WATER TREATMENT PLANT OPERATOR

- Working as a plant operator in a reverse osmosis plant for production of permeate water and drinking water
- Working as an engineer in maintaining the plant and also experienced in the sewage treatment plant from the same company.

(OCT 2024-JUNE 2025) WORKING AT VILLA SURGICAL AND EQUIPMENT LTD COMPANY

Order Fulfillment: Processing purchase requests for medical components (like sensors, PCBs, or specialized alloys) and ensuring they match the required technical specs.

Supplier Liaison: Acting as the main point of contact for existing vendors, tracking delivery timelines, and resolving discrepancies in orders.

Quality Verification: Working with the Quality Assurance (QA) team to ensure incoming materials meet medical standards (e.g., ISO 13485).

Inventory Control: Monitoring stock levels of critical spare parts to prevent downtime in medical device production or maintenance.

Cost Monitoring: Tracking local market prices and ensuring purchases stay within the department's budget.

Global Vendor Selection: Identifying and vetting manufacturers in international markets (e.g., Germany, China, or the US) who can produce specialized medical tech.

Regulatory Compliance: Navigating international trade laws, customs, and ensuring that foreign suppliers comply with stringent medical certifications (FDA, CE, etc.).

Contract Negotiation: Leading high-stakes negotiations for long-term supply agreements, focusing on "bulk" discounts and intellectual property protection.

Risk Management: Developing backup plans (multi-sourcing) to ensure the company isn't paralyzed if a specific region faces a supply chain disruption or political instability.

Market Intelligence: Analyzing global trends to predict price fluctuations in raw materials (like titanium or medical-grade plastics) or emerging technologies.

(JUNE 2025- DATE)WINNERS CHAPEL INT'I RONGAI CHURCH

ADMINISTRATOR/ SECRETARY -CURRENT

Pastoral Support: Managing the Resident Pastor's diary, scheduling appointments, and handling confidential correspondence.

Documentation: Taking minutes during Board, Deaconship, or Workers' meetings and ensuring the church's "Administrative Policy Manual" is followed.

Member Records: Maintaining the church database, including New Converts' records, First Timers' data, and Water Baptism registers.

Service Coordination: Preparing the weekly "Worship Bulletin," announcement slides, and ensuring testimonies are properly documented for service.

Communication: Sending out bulk SMS or emails for mid-week services, special programs (like Shiloh), and WSF (Home Cell) meetings.

Facility Management: Overseeing the Sanctuary Keepers and maintenance teams to ensure the church building and "Covenant Rooms" are clean and functional.

Procurement: Sourcing and purchasing office supplies, communion elements, and maintaining inventory for the Dominion Bookstore.

SKILLS

1. Mathematical ability

From algebra to calculus, mathematics helping me to analyze the problems

2. Scientific acumen

. Understanding the principles of physics and able to participate in science fairs experience.

3. Logical thinking

Reasoning to navigate complex problems and make decisions based on quantitative analysis,

4. Creative problem-solving

Finding innovative solutions to complex issues. Practice thinking outside the box by tackling daily problems creatively.

5. Analytical skills

Able to Identify and articulate problems clearly, analyze data to extract actionable insights, and apply critical thinking to evaluate different solutions.

6. Project management and teamwork

Take part in group projects, join a club, or lead a team in class or school competitions to develop these essential skills.

7. Communication skills

Being able to discuss ideas, explain technical jargon clearly and get your point across is important.

8. Attention to detail

Patience for engineering tasks and having a keen eye for detail.

OBJECTIVES AND FOCUS

- To be obedient to the terms and conditions of the organization with due respect to the Leadership instructions and guidance
- To drive forward the Vision and the dream of the organization.
- To add value and be profitable at the departmental level assigned with hard work, determination, commitment, discipline, transparency and integrity.
- To build my personality in terms of trust, integrity, reliability and honest.
- To nature my skills and build up my potential and capacity for being valuable to the society.

LANGUAGE

- English and Kiswahili

INTEREST

- To acquire more knowledge, skills, personality, confidence and the best working relationship with my colleagues

HOBBIES

- Research on the field of work am involved for good work efficiency
