

ESRAA MOHAMMEDZAIN

Biomedical Engineer | Medical Device Maintenance | Technical Training | Troubleshooting Expert

+97430621973 • esraa18561@yahoo.com • linkedin.com/in/esraa-mohammed-zain • Doha, Qatar

Summary

Biomedical Engineer with over 6 years of experience in maintaining and troubleshooting medical devices. Skilled in preventive and corrective maintenance, device calibration, and technical training. Passionate about enhancing patient care through innovative medical technologies.

Key Achievements

-  **Device Maintenance Success**
Performed maintenance on 150+ devices monthly with 98% uptime rate.
-  **Technical Training Initiative**
Trained 50+ healthcare professionals, improving equipment handling efficiency by 30%.
-  **Proactive Maintenance Strategies**
Increased equipment lifespan by 20% through proactive maintenance strategies.
-  **Efficiency Enhancement Protocols**
Reduced equipment downtime by 40% through rapid response protocols.

Experience

- Health Centers** Sudan
Biomedical Engineer 2014 - Present
 - Maintenance and sales of routine lab devices, dental units, operating room equipment, and more
 - Replaced spare parts and performed troubleshooting
 - Technical Instructor
- Al Wakra Hospital** Qatar
Biomedical Technician 12/2023 - 02/2024
 - Worked as a trainee in the Biomedical Engineering Department
 - Maintained and tested devices: Ultrasound (Logic E9), Endoscopy, Infusion Pumps, Cardiac Monitors, Electrosurgical Units, Ventilators, Warmers, Anesthesia Machines, and more
 - Weekly rotations across Life Support and Surgery Monitoring sections
- Tuga Specialist Hospital** Sudan
Biomedical Engineer 2014 - 2015
 - Conducted preventive and corrective maintenance of hospital equipment
- Omdurman Hospital & Dialysis** Unit, Sudan
Intern Biomedical Engineer 2013
 - Hands-on experience with dialysis machines: Gambro, B. Braun, Fresenius
- Military Hospital** Omdurman, Sudan
Biomedical Technician Intern 2011 - 2012
 - Rotated monthly through ICU, ENT, Surgery, Outpatient, X-ray, and Labs
 - Ensured functionality of all medical equipment through daily rounds

Education

- Sudan University of Science and Technology** Sudan
B.Sc. in Biomedical Engineering 09/2015 - 06/2018
- Sudan University of Science and Technology** Sudan
Diploma in Radiological and Medical Instruments 01/2007 - 01/2010
