

CURRICULUM VITAE

NELIS NANJALA WEKESA

PO.BOX 75-40500 BUSIA (K)

TEL: 0769205199

EMAIL: nelisnanjala00@gmail.com

PROFILE

Dedicated Biomedical Engineer with a proven track record in the installation, maintenance and repair of medical equipment. As a detail-oriented professional, I am committed to ensuring the optimal functionality and safety of critical healthcare technology. My technical expertise encompasses a wide range of medical devices.

CORE VALUES

- Team player.
- Coordinating.
- Cooperative.

ACADEMIC DETAILS AND QUALIFICATION

2021-2023: DIPLOMA IN MEDICAL ENGINEERING-KABETE NATIONAL POLYTECHNIC.

2017-2020: KENYA CERTIFICATE OF SECONDARY EDUCATION –LWANYA GIRLS SECONDARY SCHOOL.

2006-2016: KENYA CERTIFICATE OF PRIMARY EDUCATION- BUSIA TOWNSHIP PRIMARY SCHOOL.

PROFESSIONAL EXPERIENCE

ALLMED MEDICAL SUPPLIES LIMITED (TO DATE)

Core responsibility (BML MACHINE)

- Identify and develop engineering service opportunities within approved frame works
- Conduct technical site assessment, feasibility studies, and solution scoping
- Execute system installation, commissioning, testing and hand over
- Deliver preventive and correcting maintenance services

Dialysis machine and consumables.

Supply and continuity management of renal care equipment and consumables.

To ensure uninterrupted renal care delivery by supplying dialysis equipment and consumables with high reliability and technical coordination.

Core responsibility

- Promote and sale dialysis machine and consumable
- Support renal unit with supply planning and forecasting
- Coordinating equipment installation and user orientation
- Ensure zero stock-out of critical consumables
- liaise with technical team and maintenance and up time
- Manage long-term supply contracts and renewals.
- Social media marketing for the company products.

DIRA HEALTH CARE TECHNOLOGY

Core responsibilities

- Lead marketing in all medical equipment and all accessories.
- Manage long-term supply contracts and renewals.
- Find stable selling market for all medical equipment and accessories.
- Documenting and taking records of sales.
- Liaise with technical team and maintenance and up time.
- Relationship management with all involved partners and market approach strategy.

PRESSURE SWING ADSORPTION (PSA) TRAINING (MARCH)

Startup procedure in PSA plant.

PSA plant operation S.O.P

Oxygen plant and fire safety

Operating parameter quality for oxygen plant

PPM for oxygen plant.

BIOMEDICAL ENGINEERING TECHNICIAN INTERN.

MAMA LUCY KIBAKI HOSPITAL

2024-PRESENT

- Evaluated incoming equipment to check compliance with standards and safety requirements.
- Inspected and tested electrical systems to verify safe operation.
- Helped evaluate equipment functionality and suitability for planned biomedical uses.
- Calibrated clinical equipment for optimal performance based on manufactures' specifications.
- Assisted with department administration work including coordinating work, orders records and safety inspection reports.
- Handed repairs, preventive maintenance and refurbishments on in house medical devices.
- Logged work-related activities for internal recordkeeping requirements and regulatory purposes.
- Volunteered for and tackled new assignments and tasks to ease staff members.
- Designed and installed a specialized medical gas piping system in an oxygen plant, ensuring a reliable and safe supply of medical-grade oxygen to healthcare facilities.
- Recharged the liquid refrigerant into the freezers' compressor, restoring its cooling efficiency and functionality.
- Conducted routine oxygen purity checks at the oxygen plant, ensuring the consistent delivery of high –quality medical-grade oxygen to healthcare facilities.
- Provided valuable assistance in conducting PPM (Planned Preventive Maintenance) on the incinerator, contributing to its optimal performance and safety.
- Dedicated attending continuous medical education sessions for patients' relatives on the proper usage and maintenance of oxygen concentrators, ensuring their ability to provide essential care and support.

BUSIA COUNTY REFERRAL HOSPITAL

SEP-DEC

Completed a 3 months attachment at Busia County where I learned installation, calibration, operation and maintenances of equipment.

PERSONAL QUALITIES AND ABILITIES

Microsoft Office

Biomed equipment maintenance and installations.

Technical troubleshooting

Safety protocols

Documentation and reporting

Medical gas piping

REFEREES

Please feel free to contact the under mentioned regarding my competence, work ethic and performance.
