PROFESSIONAL SUMMARY

Dedicated and detail-oriented Biomedical Engineering professional with hands-on experience in medical equipment installation, maintenance, troubleshooting, and performance evaluation. Skilled in supporting clinical environments by ensuring medical devices operate safely and efficiently to enhance patient care.

Proven ability to collaborate with healthcare teams to diagnose technical issues and implement effective solutions. Adept at working under pressure, managing multiple tasks, and adhering to strict safety and professional standards. Seeking an opportunity to apply technical expertise to improve healthcare service delivery.

SKILLS

- Biomedical equipment installation, servicing, and maintenance
- Preventive and corrective maintenance of medical devices
- Troubleshooting and fault diagnosis
- Medical gas systems inspection and maintenance
- Reverse Osmosis (RO) systems maintenance
- Electrical and electronic systems handling
- Computer proficiency

WORK HISTORY

BIOMEDICAL ENGINEERING CONSULTANT

09/2025 to CURRENT

Various Clients | Nairobi, Kenya

- Perform corrective maintenance on therapeutic equipment including dialysis and anesthesia machines
- Service and maintain dental chairs and Reverse Osmosis systems
- Conduct repairs and maintenance on autoclaves
- Provide technical support to ensure equipment reliability and safety

BIOMEDICAL ENGINEERING ATTACHÉ

02/2025 to 04/2025

Pumwani Maternity Hospital | Nairobi, Kenya

- Serviced and repaired neonatal and maternal healthcare equipment
- Conducted preventive maintenance to minimize downtime
- Supported safety checks and technical operations in specialized units
- Worked alongside senior engineers to ensure continuous equipment functionality.

VOLUNTEER WORKS

BIOMEDICAL ENGINEERING ATTACHÉ

03/2023 to 05/2023

Nairobi Hospital | Nairobi, Kenya

- Performed preventive maintenance on diagnostic and therapeutic equipment
- Inspected and maintained medical gas systems and oxygen supply units
- Supported dialysis systems including RO water treatment

- Collaborated with clinical staff to improve equipment usability

BIOMEDICAL ENGINEERING ATTACHÉ

09/2022 to 11/2022

Coast General Teaching and Referral Hospital | Nairobi, Kenya

- Assisted in installation, calibration, and maintenance of medical devices
- Repaired ICU, HDU, theatre, dental, X-ray, and maternity equipment
- Maintained hospital plants including generators and morgue systems
- Performed welding, fabrication, and air conditioning repairs

EDUCATION

Diploma in Biomedical Engineering Technology

11/2025

Kenya Medical Engineering College, Nairobi

- Graduated with Pass (Distinction Category)

Certificate in Biomedical Engineering Technology

12/2023

Kenya Medical Engineering College, Nairobi

- Graduated with a Pass (Distinction Category)

High School Diploma

11/2019

Waa Girls High School

CERTIFICATIONS

Certificate in Biomedical Engineering Technology
