

Curriculum Vitae

SETH OTANI

Biomedical Engineer

0796247788

sethotani@gmail.com

Professional Summary

I am a Biomedical Engineering graduate. I have 7 months of hospital experience fixing, testing, and maintaining medical machines. I work with ventilators, patient monitors, infusion pumps, X-ray, ultrasound, and lab equipment. And also have 1 year of sales experience selling food items and household appliances. This helped me build strong communication and customer service skills. I am careful, hardworking, and good at solving technical problems. I want to use my skills to keep hospital equipment safe and working well.

SKILLS

- Medical Equipment: Ventilators, anesthesia machines, patient monitors, infusion pumps, dialysis machines, ECG, X-ray, ultrasound, autoclaves, lab machines
- Main Duties: Preventive maintenance, repairs, calibration, electrical safety tests, installation, training staff, CMMS records
- Other Skills: Customer care, product demos, sales, report writing

WORK EXPERIENCE

Biomedical Engineering Intern _Kisii Teaching and Referral Hospital (June 2022 – Sep 2022. 4 Months)

- Checked and maintained 180+ medical machines in ICU, Theatre, HDU, and Renal
- Repaired ventilators, anesthesia machines, and patient monitors
- Tested electrical safety on machines using Fluke ESA as per IEC 60601-1 rules
- Helped install new infusion pumps and dialysis machines. Trained 35 nurses on how to use them

- Updated machine records and repair history in Hippo CMMS
- Found and fixed a common problem with infusion pumps that reduced repeat faults

Biomedical Engineering Intern | _The Mediforte hospital Kisii (Mar 2023 – May 2023. 3 Months)

- Maintained and calibrated lab machines like hematology and chemistry analyzers
- Repaired ECG machines, monitors, and suction units
- Made simple checklists for autoclave and ultrasound maintenance
- Trained nurses on how to use ECG and monitors correctly
- Helped count spare parts to avoid stock outs

Sales Representative _ Kapu Africa Ltd, Nairobi_

(March 2025– April 2025 One year)

- Sold food items and household appliances like blenders and cookers to shops, hotels, and schools
- Met and grew 40+ customer accounts
- Did product demos in stores and trained customers on how to use appliances
- Handled customer complaints and warranty issues
- Planned routes, managed stock, and sent weekly sales reports
