Work Experience

Exact Solutions Company Sales Representative

01/2024 – Present

Drives business growth by promoting and selling company solutions, building strong client relationships, generating new leads, and ensuring customer satisfaction.

Client Engagement

- Conducts regular meetings and consultations with clients to thoroughly understand their operational needs and provide tailored solutions.
- Builds, nurtures, and maintains strong relationships with both new and existing clients to enhance loyalty and long-term business partnerships.

Lead Generation

- Identifies and qualifies potential leads through research, networking, and cold outreach to expand the company's customer base.
- Engages prospective clients with targeted communications and presentations to create opportunities for new business.

Product Promotion

- Demonstrates company products and services through detailed presentations and practical demonstrations, emphasizing key features, benefits, and ROI for clients.
- Coordinates workshops, on-site product trials, and interactive sessions to increase client awareness and adoption of solutions.

Sales Negotiation

- Negotiates contracts, pricing agreements, and service terms to successfully close sales while ensuring mutual satisfaction and compliance with company policies.
- Prepares comprehensive proposals and quotations aligned with client requirements and organizational objectives, enhancing conversion rates.

Market Analysis

- Conducts ongoing market research to identify industry trends, emerging opportunities, and competitor strategies, providing actionable management insights.
- Analyzes regional and client-specific sales data to optimize strategies, improve targeting, and support business growth initiatives.

Sales Reporting

- Prepares and submits detailed sales performance reports to management, tracking progress against targets and highlighting key achievements and areas for improvement.
- Monitors and records all sales activities, client interactions, and pipeline developments to ensure accurate documentation and informed decision-making.

Customer Support

- Addresses client inquiries, complaints, and technical issues promptly, ensuring seamless service delivery and high levels of customer satisfaction.
- Follows up with clients after sales to confirm satisfaction, gather feedback, and encourage repeat business or referrals.

Oshpro Services Organization

05/2025 – 08/2025

Field Representative

Drove regional sales growth by promoting and delivering workplace health and safety solutions, building client relationships, and ensuring customer satisfaction while supporting compliance with international safety standards.

- Promoted and sold Oshpro Services solutions to businesses across the region, identifying client needs and tailoring product demonstrations to maximize value.
- Conducted comprehensive workplace inspections across multiple sites in the region, identifying potential health and safety hazards and ensuring full compliance with international standards and best practices.
- Prospected, engaged, and built strong relationships with new and existing clients to expand the company's customer base and market presence.
- Monitored, evaluated, and reported on company adherence to local and international occupational health and safety regulations, recommending improvements where necessary.
- Investigated workplace incidents and near-misses, prepared detailed analytical reports, and collaborated with management to implement corrective actions to prevent future occurrences.
- Conducted product presentations, workshops, and on-site demonstrations to educate clients on workplace health and safety solutions.
- Promoted and demonstrated Oshpro Services solutions to potential clients, addressing specific workplace safety needs and showcasing the benefits of the products and services.
- Followed up with clients to ensure satisfaction, resolve issues, and generate repeat business opportunities.
- Negotiated contracts, managed client relationships, and successfully closed sales, contributing to regional revenue growth while aligning solutions with client requirements.
- Collected, analyzed, and presented comprehensive regional data on health and safety compliance and sales performance, providing actionable insights to inform strategic decisions and operational improvements.

Mewa Hospital

04/2024 – 08/2024

Medical Engineer Attaché

Assisted in ensuring the effective operation, maintenance, and management of hospital medical equipment to support uninterrupted patient care and enhance diagnostic and therapeutic services.

- Assisted in ensuring proper functioning, maintenance, troubleshooting, and timely repair of CU, HDU, IDU, and NICU medical equipment, supporting uninterrupted patient care.
- Maintained and calibrated Accident and Emergency equipment to guarantee readiness for critical care and emergency response situations.
- Assisted in Servicing, updating software, and conducting routine inspections for MRI, CT scan, and Ultrasound machines, ensuring optimal imaging performance and diagnostic accuracy.
- Supported the operation and maintenance of interventional cardiology and neurology equipment, enhancing the accuracy of diagnostic and therapeutic procedures.
- Assisted in the integration, installation, and functional testing of molecular imaging, radiotherapy, and brachytherapy equipment within the Cancer Center to improve patient treatment outcomes.
- Operated, monitored, and maintained the Medical Oxygen Plant, Medical Air Plant, and Oxygen Refilling Pumps, ensuring continuous availability of medical gases in compliance with safety standards.
- Maintained, repaired, and calibrated rehabilitation, dental, and ambulance equipment, ensuring full operational readiness for patient care, therapy, and emergency transportation.
- Conducted detailed fault diagnosis, preventive maintenance, and corrective repairs for various hospital medical equipment, minimizing downtime and service disruption.
- Assisted in the installation, commissioning, and technical validation of new medical equipment, ensuring compliance with manufacturer specifications and hospital standards.
- Provided technical support, user training, and operational guidance to clinical staff, promoting proper equipment use, safety, and adherence to standard operating procedures.
- Ensured all medical equipment complied with regulatory, safety, and manufacturer standards, supporting hospital accreditation and patient safety protocols.
- Maintained comprehensive records of maintenance, servicing, repairs, and equipment lifecycle management, contributing to data-driven decisions and asset optimization.
