Professional Summary:

Technical expert in troubleshooting device issues and coordinating maintenance solutions. Skilled in negotiating contracts and collaborating with stakeholders to optimize performance. Combines engineering expertise with relationship-building to resolve critical equipment challenges.

Education:

Bachelor's degree in Biomedical engineering.

Shourouk Academy, New Cairo, Egypt

September 2023

Experience:

1. Maintenance & After Sales Representative (Delta Area Manager) – Surgitech EG

Cairo, Egypt

April 2025

- Closed maintenance contracts by aligning hospital needs with our certified service solutions.
- Solved equipment downtime challenges by fast-tracking repairs through our certified network.
- Ensured seamless supply of critical medical cables/accessories to keep operations running.
- Built strong relationships with procurement managers and biomedical staff.

2. Sales Representative – Surgitech EG

Cairo, Egypt

January 2025 – April 2025

- Promoted and marketed medical plates and screws for trauma surgeries to potential clients (surgeons) through direct visits and presentations.
- Built and maintained relationships with surgeons and medical professionals, understanding their specific needs and providing tailored product solutions.
- Attended trauma surgeries to assist doctors during the plate and screw installation process, ensuring optimal product usage and providing real-time support.
- Provided ongoing product training and support to healthcare professionals, offering demonstrations and guidance to ensure proper usage and functionality of medical devices.

3. Maintenance Engineer – ElMadar

Cairo, Egypt

December 2023 – January 2025

- Performed maintenance and repair on dental units, dental x-rays, and sterilization devices.
- Conducted both indoor and outdoor maintenance tasks to ensure the proper functioning of equipment.
- Involved in marketing new products and presenting them to clients.

- Gained experience in both technical maintenance and customer interaction.

4. Maintenance Engineer – Future Medical PT

Zagazig, Egypt

October 2023 – November 2023

- Maintained cosmetic and natural therapy devices, ensuring optimal performance and reliability.
- Addressed technical issues and performed repairs as needed.
- Assisted in the installation and calibration of new devices.

5. Internship – Life Care Technologies

Cairo, Egypt

June 2022 – August 2022

- Gained hands-on experience maintaining Dräger machines, including ventilators and anesthesia equipment.
- Assisted in troubleshooting and resolving technical issues related to the operation of critical care equipment.
- Involved in routine inspections and preventive maintenance tasks.

Certifications:

Hospital Training in Biomedical Equipment

[Cleopatra], [Cairo, Egypt]

August, 2021

Completed training on preventative maintenance, calibration, and operation of various medical equipment including X-rays, ultrasound, anesthesia machines, and patient monitors.

Python Programming

Jelecom Center, Cairo, Egypt

September 2021

Raspberry Pi Applications

Jelecom Center, Cairo, Egypt

September 2021

Flutter Development Guide

Online Course

June 2022

Skills:

- Biomedical Equipment Maintenance: Experienced in maintaining and troubleshooting medical devices.
- Programming: Proficient in MATLAB, Python, Java, and SQL.
- Technical Documentation: Ability to create and understand technical documentation related to medical devices.
- Communication: Excellent ability to communicate effectively with diverse teams and clients.
- Reliability: Highly dependable and committed to delivering consistent, high-quality work.
- English Proficiency: Strong command of English, both written and spoken.
