

# TAYLOR COLLIN OBOTE

## Biomedical Engineer

Kenya | +254 746 862 648 | taylorcollin65@gmail.com

---

## PROFESSIONAL SUMMARY

I am a dedicated Biomedical Engineer with hands-on experience in the maintenance, repair, and calibration of hospital medical equipment. I am proficient in implementing preventive maintenance programs, troubleshooting complex biomedical systems, and ensuring optimal equipment performance to support continuous and safe patient care.

---

## WORK EXPERIENCE

### Biomedical Engineer | Mother Amadea Mission Hospital

*February 2026 – Present*

- Manage and maintain biomedical systems to ensure clinical operational efficiency.
- Conduct equipment diagnostics and implement corrective maintenance for critical care devices.
- Collaborate with clinical teams to ensure compliance with safety and performance standards.

### Biomedical Engineer | Jocham Hospital, Mombasa

*July 2025 – December 2025*

- Conducted Planned Preventive Maintenance (PPM) on ventilators, dialysis machines, and incubators.
- Repaired ultrasound machines, anesthesia equipment, and diagnostic medical devices.
- Recalibrated neonatal and patient weigh scales for compliance with regulatory standards.
- Maintained plumbing for the Reverse Osmosis (RO) plant and hospital water systems.
- Trained and supervised engineering attachés on equipment safety, documentation, and record-keeping.

### Biomedical Engineering Intern | Mewa Hospital, Mombasa

*May 2024 – August 2024*

- Maintained medical gas supply systems and performed PPM on theatre and laboratory equipment.
  - Repaired electrical systems and fabricated specialized hospital equipment to improve functionality.
- 

## EDUCATION

### Bachelor of Technology in Medical Engineering (2nd Class Honors)

Technical University of Mombasa | *Sept 2021 – May 2025*

### Kenya Certificate of Secondary Education (B+)

St. Mary's School, Yala | *Jan 2017 – May 2021*

---

## SKILLS

- **Technical:** Medical Equipment Maintenance, Ultrasound Systems, Calibration, Quality Control
  - **Systems:** Preventive/Corrective Maintenance, Technical Documentation, Embedded Systems
  - **Languages:** English, Swahili
- 

## PROJECTS

### Skin Ailment Detection System

- Designed a portable dermatoscope using Arduino Due and Bluetooth for real-time image transmission.
  - Implemented image compression and automated capture to enhance diagnostic efficiency.
  - Integrated a user-friendly interface for remote dermatological assessment.
- 

## REFEREES

- **Eng. Francis Kyallo** – Head of Maintenance, Jocham Hospital | +254 716 847 334
- **Mrs. Agnes-** Head of laboratory department, Jocham Hospital | +254 724 911453
- **Eng. Kelvin Mahuthu** – Head of Engineering, Sam-Tech Diagnostics | +254 728 426 261
