

PHILIP MANGALE

Biomedical Engineer | IT Technician

CONTACT

Phone: +254 793261988
Email: mangalephilip@gmail.com

PROFILE

Biomedical and electronics engneer with hands-on experience in installation, and repair of medical equipment. Currently running a technology service center providing digital and IT solutions, devices repair, networking, and technical training. Experienced in integrating hardware and software systems using Python, C++, Java and web technologies to automate systems.

CORE
COMPETENCIES

- Preventive and corrective maintenance of equipment.
- Troubleshooting of ICU, laboratory, radiology, and diagnostic devices.
- Netwoking setup and internet intallation and maintenance.
- Embedded systems and IoT-based solutions.
- Android software troubleshooting and system repairs.
- Computer programming: Python, C++, JavaScript, HTML, CSS.

PROFESSIONAL
EXPERIENCE

PRECISION TECHS AND ENGINEERING

FOUNDER AND TECHNICAL LEAD **NOV 2025 - PRESENT**

- Manage and operate a technology service center providing digital and cyber services.
- Diagnose and repair laptops, desktop computers, and electronic devices.
- Perform Android software troubleshooting and system recoveries.
- Install and maintain Internet/WIFI networks for clients.
- Provide technical support and cost-effective solutions to a wide range of clients.
- Training individuals on computer applications and coding.

FREELANCE AI DEVELOPER (REMOTE)

FEB 2025 – SEP 2025

- Developed Python-based solutions for AI-related tasks including automation and data processing.
- Worked on AI training using various neural networks and machine learning models.
- Build scripts for task automation, data cleaning, and workflow optimization.
- Gained experience in real-world Alpipelines and remote technical collaboration.

PORT REITZ SUB-COUNTY HOSPITAL

JAN 2024 – MAY 2024

MEDICAL ENGINEERING ATTACHEE

- Maintained and serviced laboratory equipment, refrigeration systems, and plant machinery.
- Diagnosed faults and carried out timely repairs to minimize equipment downtime.
- Applied Lean and Kaizen principles to improve maintenance efficiency.
- Worked across multiple departments including maternity, dental, and critical care.

THE MOMBASA HOSPITAL

JAN 2023 – MAY 2023

MEDICAL ENGINEERING ATTACHEE

- Performed preventive and corrective maintenance on ICU, radiology, and laboratory equipment.
- Diagnosed and repaired faults to ensure continuous operation of critical medical systems.
- Maintained HVAC systems, refrigeration units, and water pumps.
- Conducted electrical installations and advanced electronics troubleshooting.
- Supported medical gas systems and ensured compliance with safety standards.

**EDUCATION
BACKGROUND**

TECHNICAL UNIVERSITY OF MOMBASA

2019 – 2024

- Bachelor of Science in Biomedical Engineering

LANGUAGES

- English(Fluent)
- Swahili(Fluent)
