

CURRICULUM VITAE

PROFILE

A motivated and detail-oriented Diploma holder in Medical Engineering from Kenya Medical Training College (KMTC), with a strong foundation in the maintenance, repair, and calibration of medical equipment. Skilled in troubleshooting biomedical devices, ensuring compliance with safety standards, and supporting healthcare professionals to deliver quality patient care. Demonstrates strong technical ability, problem-solving skills, and a commitment to continuous learning and professional development. A reliable team player with good communication skills, ready to contribute effectively in a healthcare or biomedical engineering environment.

PERSONAL DETAILS

Full Name:	CLARE CHEPNGETICH
ID No:	39006400.
Marital Status:	Single.
Religion:	Christian.
Language:	English/Kiswahili.
Nationality:	Kenyan.
TEL:	0743410358
EMAIL:	clare5chepngetich@gmail.com

CAREER OBJECTIVES

To build a successful career in medical engineering by working in a progressive organization that values innovation and technical excellence, where I can enhance my skills in biomedical equipment management and support the delivery of high-quality healthcare services.

EDUCATION BACKGROUND

YEAR	INSTITUTION	COURSE
2022 - 2025	Kenya Medical Training College	Diploma in Medical Engineering
2020 - 2022	Kenya Medical Training College	Certificate in Medical Engineering
2015 – 2019	AIC Kakibei Girls Secondary School	Kenya Certificate of Secondary Education
2006 - 2014	Lelagoi Primary School	Kenya Certificate of Primary Education.

CURRENT WORK EXPERIENCE BIOMEDICAL

ENGINEER INTERN AT GURU NANAK HOSPITAL

23rd February to 25th May 2026.

ROLES

- Maintenance, repair and service of medical equipment.
- Calibration of machine and electrical installation.
- Installation of power outlets, lighting points and equipment.
- Attending to daily requisition.
- Cleaning and disinfection of ICU machines.
- Operating, repairing, servicing and monitoring of oxygen plant.
- Repair and maintenance of laundry equipment.
- Cleaning and repair of clogged sinks and toilet cisterns.
- Tested and carried out electrical safety on medical equipment.
- Maintaining solar panel and repairing damaged heaters.
- Installation and repairing of medical equipment.
- Working on HVAC equipment during breakdown and service.

- Liaising with vendors during their visit to ascertain their work.

PRATICAL EXPERIENCE

25th March 2024 to 17th May 2024

ATTACHMENT - ITEN COUNTY REFERRAL HOSPITAL

ROLES

- Installing, Training and testing new Medical Equipment's.
- Repair and Maintenance of dialysis and critical care equipment's.
- Management and application of medical oxygen.
- Routine workshop management and Inventory update.
- Repair and Maintenance of hospital plants.
- Repair and maintenance of medical laboratory equipment's.
- Repair and Maintenance of radiology and medical imaging equipment's.

14th February to 14th April 2022

ATTACHMENT- KISII TEACHING AND REFERRAL HOSPITAL.

R0LES.

- Workshop Practice and arrangements Production.
- Diagnosis and repair of clinical equipment and machine for example blood pulsating machines, flow cytometers, incubators, oxygen concentrators, microscope and lung ventilators.
- Hospital equipment and machines such as autoclaves, laundry machine, cold room machine.

- Electrical repair and maintenance of electrical apparatus.
- Micro plumbing repairs.
- Medical equipment and machines installation such as oxygen plant, dental chairs, mammal cardiographs and hospital incinerations.

6th September 2021 to 29th October 2021

ATTACHMENT – KERICHO COUNTY REFERRAL HOSPITAL.

ROLES

During the attachment I was able to cover maintenance in the following areas;

- Electrical Installation
- Laboratory Equipment's /Physiotherapy equipment's
- Diagnostic Equipment's
- General Ward Equipment's
- Basics or Radiology Equipment's
- Dental unit and Renal Unit Equipment's
- Cold room machines and controls
- Filling of Maintenance Form
- Safety and Maintenance of Equipment's

EXTRA CURRICULUM ACTIVITIES

- Good football player.
- Team player in athletics having the ability to run.

SKILLS

- Ability to Diagnose Problems
- Attention to Detail
- Communication and interpersonal skills
- Analytical Thinker

INTEREST

- Strong interest in biomedical engineering and medical device innovation
- Passionate about ensuring efficiency and safety of hospital equipment
 - Enthusiastic about learning new technologies in healthcare
- Interested in research, troubleshooting, and technical problem-solving

RE: RECOMMENDATION LETTER – CLARE CHEPNGETICH ID NO- 39006400

Clare Chepngetich was on internship as a Biomedical Technologist in the Maintenance department from 23rd February 2026 to 25th May 2026. During her tenure, she demonstrated passion and dedication in carrying out her duties.

These duties included:

- Maintenance, repair and service of all medical equipment
- Calibration of machines and electrical installation.
- Installation of power outlets, lighting points and equipment.
- Attending to daily requisition.
- Cleaning and disinfection of ICU machines.
- Operating, repairing, servicing and monitoring of oxygen plant.
- Repair and maintenance of laundry equipment.
- Cleaning and repairing clogged sinks and toilet cistern.
- Tested and carried out electrical safety on medical equipment.
- Maintaining solar panels and repairing damaged heaters.
- Installation and repairing of medical equipment.
- Working on HVAC equipment during breakdown and service.
- Liaising with vendors during their visit to ascertain their work.

Throughout her stay, she was always punctual, reliable and a team player.

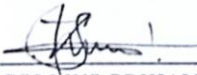

Kindly accord her any assistance she requires to further her career.

Yours faithfully,

For and On Behalf of:
Guru Nanak Ramgarhia Sikh Hospital,

RUTH MUCHAI
HUMAN RESOURCE MANAGER.

RE: RECOMMENDATION FOR CLARE CHEPNGETICH ID NO. 39006400
ADM: D/UPMET/23022/2024

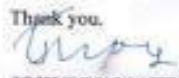

The above named Student was attached in our department from 25th March 2024 to 17th May 2024. Her duties were but not limited to:

1. Installation, training and testing of new medical equipment
2. Repair and Maintenance of dialysis and critical care equipment
3. Management and application of medical oxygen
4. Routine workshop management and inventory update
5. Repair and Maintenance of hospital plants ie oxygen plant and CSSD.
6. Repair and Maintenance of medical laboratory equipment
7. Repair and Maintenance of radiology and medical imaging equipment

She is able to cover the skilled areas with minimum supervision. She is jovial, resourceful, well behaved, industrious, punctual and respectful and has the zeal and passion for work.

Any assistance accorded to her is appreciated and more information if required, please do not hesitate to contact the undersigned.

Thank you.

RE: CLARE CHEPNGETICH C/MET/21033/1990.ID NO 39006400

The above-named Medical Engineering student did her attachment in this facility from 14TH February to 14th April 2022. During the attachment, she covered the following areas among others:

1. Workshop practice and arrangements production.
2. Diagnostic and repair of clinical equipment and machines e.g., blood pulsating machines, flow cytometers, incubators, oxygen concentrators, microscope and long ventilators etc.
3. Hospital equipment and machines i.e., autoclave, laundry machine, cold room machine,
4. Electrical repair and maintenance of electrical apparatus.
5. Micro-plumbing repairs.
6. Medical equipment and machines installations such as oxygen plant, dental chairs, mammal cardiographs and hospital incinerators.

The student was of good conduct and above average in terms of technical capability.

Thank you in advance.

**RE: PRACTICAL ATTACHMENT FOR CLARE CHEPNGETICH ADM
C/MET/24033/1990.**

The above named student from Kenya medical Training College (Lake Victoria campus) was attached to our Biomedical Engineering Department as from 6th September, 2021 to 29th October, 2021 for practical attachment.

During her attachment she was able to cover maintenance in the following areas;

- Electrical installation
- Theatre and CSSD equipment
- Laboratory equipment/Physiotherapy equipment
- Diagnostic equipment
- General ward equipment
- Basics of radiology Equipment
- Dental units and Renal Unit equipment.
- Cold room Machines and controls.
- Filling of Maintenance forms.
- Safety and maintenance of equipment.

She has been hardworking trainee and always willing to learn with minimum supervision.

Regards

Bett Jared,
Bio medical Engineer I/C
