

LEAH KAGEHA LAGOSWA

Medical engineer | Biomedical Engineer | Equipment Servicing | Sales Support Mobile no: 0740181701 |
@kagehaleah69@gmail.com | <https://www.linkedin.com/in/leah-lagoswa> Nairobi, Kenya

PROFESSIONAL SUMMARY

Biomedical Engineer with hands-on experience in medical equipment support, customer engagement, technical demonstrations, and healthcare field operations. Skilled in preventive maintenance, troubleshooting, installation, and clinical support for critical care and laboratory equipment within hospital environments. Experienced in B2B customer interaction, technical sales support, CRM documentation, and relationship management through healthcare and medical equipment settings. Strong communicator with the ability to support clients professionally, identify customer needs, and deliver reliable technical solutions while contributing to business growth and customer satisfaction.

EDUCATION

Diploma in Medical Engineering Kabete National Polytechnic | 2021 – 2023

CERTIFICATIONS

- Vayu CPAP Training – Vayu Global Health Foundation (November 2025)
- Medical Equipment Use, Repair, and Troubleshooting – Sternmed Company (January 2025 – April 2025)
- Heating, Ventilation, and Air Conditioning (HVAC) – LG (August 2024)
- Introduction to Medical Software – Yonsei University (November 2023 – January 2024)
- Foundations of Healthcare Systems Engineering – Johns Hopkins University (June 2022 – October 2022)

PROFESSIONAL SUMMARY

Biomedical Engineer | Mama Lucy Kibaki Hospital Jan 2025 – Present

- Provide preventive and corrective maintenance for critical care and neonatal medical equipment
- Install, troubleshoot, and service ICU and neonatal systems including monitors, infusion pumps, CPAP systems, incubators, and oxygen concentrators
- Perform fault diagnosis and repairs in compliance with hospital SOPs and safety standards
- Support clinical staff with technical guidance and equipment usage training
- Maintain service documentation and maintenance records
- Support inventory and spare parts coordination

Freelance Biomedical Engineer | MeDevice Africa Mar 2025 – Present

- Deliver field service support for installation, maintenance, and repair of medical equipment
- Conduct preventive maintenance, calibration, and troubleshooting across healthcare facilities
- Respond to service requests and perform on-site diagnostics
- Prepare service reports and support client communication
- Conduct equipment demonstrations and user support

Biomedical Engineering Intern | Gould Family Foundation Jun 2024 – Jan 2025

- Installed and maintained neonatal and critical care equipment
- Performed preventive maintenance, calibration, and corrective repairs
- Supported clinical staff with technical assistance and training

Pharmaceutical Store Attendant & Sales Executive | Philmed Limited Jan 2024 – Jun 2024

- Conducted B2B outreach and customer engagement for medical equipment and consumables
- Promoted healthcare products through consultative sales and client relationship management

- Handled quotations, customer inquiries, negotiations, and follow-ups professionally
- Maintained CRM records and supported inventory coordination and order management
- Built and maintained strong relationships with healthcare clients to support business growth

Medical Engineering Intern | Kenyatta University Teaching & Referral Hospital Aug 2022 – Dec 2022

- Performed troubleshooting and repair of medical equipment
- Conducted preventive maintenance and safety checks
- Assisted in installation of clinical and theatre equipment

ADDITIONAL EXPERIENCE

Community Outreach – Medical Equipment Assessment Initiative

- Conducted hospital assessments and identified equipment faults and maintenance gaps
- Proposed technical solutions to improve reliability and performance

PROJECTS

- Non invasive blood glucose monitor system using near Infrared.
- Automatic shopping robot

CORE SKILLS

Biomedical Engineering: Medical Equipment Installation | Preventive Maintenance | Calibration | Troubleshooting | Equipment

Critical Care Systems:*Ventilators | ICU Equipment Handling | Patient Monitoring Systems | Diagnostic Devices | Emergency

Technical Services: Fault Diagnosis | Repair Solutions | System Testing | Performance Optimization | Service Documentation(CRM/CMMS/ERP)

Sales & Technical Support: Product Demonstration | Technical Sales | Client Consultation | After-Sales Service | Solution Selling | B2B sales.

Customer Relationship: Client Retention | Complaint Resolution | Service Excellence | Relationship Management | Support

Software: word | PPT| Excel
