

Wairimu Waithaka Suleiman

Nationality: Kenyan | **Gender:** Male | **Phone number:** (+254) 714114689 (Mobile) | **Email address:** suleimanwairimu@gmail.com | **Address:** P.o Box 85, 10100, Nyeri, Kenya (Home)

● ABOUT ME

Detail-oriented analytical chemist with a strong foundation in quantitative analysis, method development, and instrumentation. Possesses excellent problem-solving skills, meticulous attention to detail, and a proactive approach to laboratory challenges. Demonstrated ability to work effectively in multidisciplinary teams and adapt to dynamic research environments.

● EDUCATION AND TRAINING

09/2017 – 12/2021 Kisii, Kenya
BACHELOR OF SCIENCE IN INDUSTRIAL CHEMISTRY Kisii University

Final grade Second Class Honours- Upper Division

2012 – 2016 Nyeri, Kenya
CERTIFICATE OF SECONDARY SECONDARY Ithekahuno Secondary School

Final grade B- (Minus)

2005 – 2011 Kenya
CERTIFICATE OF PRIMARY EDUCATION Kamatongu Primary School

Final grade 271 Marks

● WORK EXPERIENCE

2021 – 2022 Nairobi, Kenya
CASUAL ASSISTANT RIFT GAS COMPANY LIMITED

- Assisting with scheduling service appointments, coordinating with technicians, and dispatching them to various locations as needed.
- Providing general administrative support to the office, such as filing paperwork, organizing documents, and assisting with any clerical tasks.
- Ensuring that all safety protocols and regulations are being followed, both within the office environment and out in the field.
- Supporting various projects or initiatives within the company, such as marketing campaigns, customer outreach efforts, or process improvements.
- Participating in training sessions to stay up-to-date on company policies, procedures, and industry regulations.
- Assisting with troubleshooting customer issues or concerns, working to find solutions and ensure customer satisfaction.

2022 – 2023 Nairobi , Kenya
TECHNICAL SALES REPRESENTATIVE M-GAS COMPANY

- **Product Knowledge:** Deep understanding of the company's gas products, including their features, benefits, and technical specifications. This knowledge will enable you to effectively communicate with customers and address their needs.
- **Customer Engagement:** Actively engage with potential customers to understand their requirements and recommend appropriate gas solutions. This may involve visiting clients on-site, conducting product demonstrations, and delivering presentations.
- Sales Planning and Strategy
- **Lead Generation and Prospecting Consultative Selling:** Adopt a consultative approach to sales by understanding customer challenges and proposing tailored solutions that address their specific needs. This may involve collaborating with technical experts within the company to design customized gas solutions.
- Quoting and Pricing
- Relationship Management

- Market Analysis and Feedback
- Maintain detailed records of sales activities, customer interactions, and sales forecasts. Prepare regular reports for management, highlighting sales performance, market trends, and opportunities for growth.

2023 – CURRENT Nairobi, Kenya

MOTORIZED TECHNICAL SALES REPRESENTATIVE M-GAS COMPANY

- **Product Knowledge:** Develop a deep understanding of the motorized products offered by your company, including their features, specifications, capabilities, and applications. Stay updated on the latest advancements and industry trends.
- **Customer Engagement:** Actively engage with potential customers to understand their needs, requirements, and challenges. Conduct thorough assessments to determine how your company's motorized products can meet or exceed customer expectations.
- **Sales Presentations:** Prepare and deliver compelling sales presentations and demonstrations to showcase the features and benefits of motorized products. Tailor presentations to address specific customer needs and highlight how your solutions can solve their problems or improve their operations.
- **Technical Consultation:** Provide technical expertise and guidance to customers throughout the sales process. Offer insights into product functionality, performance, maintenance requirements, and compatibility with existing systems or equipment.
- **Solution Selling:** Take a consultative approach to sales by identifying customer pain points and proposing customized solutions that leverage your company's motorized products. Emphasize the value proposition and return on investment (ROI) for the customer.
- **Relationship Building:** Cultivate and maintain strong relationships with existing customers, as well as develop new relationships with prospects and leads. Act as a trusted advisor and primary point of contact for all sales-related inquiries and support.
- **Lead Generation:** Proactively identify and pursue new sales opportunities through various channels, including cold calling, networking, referrals, and industry events. Follow up on leads promptly and persistently to convert them into sales.
- **Quoting and Proposal Development:** Prepare accurate and competitive price quotations and proposals for motorized products and services. Collaborate with internal teams, such as sales managers and engineers, to ensure proposals meet customer requirements and align with company objectives.
- **Negotiation and Closing:** Negotiate terms and conditions of sale, including pricing, payment terms, delivery schedules, and contractual agreements. Overcome objections and address concerns to secure sales and achieve revenue targets.
- **Sales Administration:** Maintain comprehensive records of sales activities.

ADDITIONAL INFORMATION

KEY COMPETENCIES

Professional Skills

- Chemical Analysis.
- Process Optimization.
- Quality Control and Assurance.
- Safety and Hazard Management.
- Regulatory Compliance.
- Materials Science.
- Environmental Management.
- Project Management.
- Communication Skills.

personal Attributes

- Critical Thinking
- Attention to Detail
- Problem-Solving Skills
- Adaptability
- Communication Skills
- Teamwork and Collaboration
- Ethical Integrity
- Leadership Potential
- Passion for Science

Digital skills

- **Data Analysis:** Proficiency in using software tools for data analysis, such as Microsoft Excel, MATLAB, R, or Python. These tools are essential for processing and analyzing experimental data, interpreting results, and drawing conclusions.
- **Laboratory Information Management Systems (LIMS):** Familiarity with LIMS software used to manage laboratory workflows, track samples, record experimental data, and generate reports. LIMS systems improve efficiency and accuracy in laboratory operations.

- **Chemical Modeling Software:** Knowledge of software tools for chemical modeling and simulation, such as ChemDraw, Gaussian, or Molecular Dynamics software. These tools are used for molecular modeling, computational chemistry, and predicting chemical properties.
- **Instrumentation Software:** Competence in operating and troubleshooting software interfaces for analytical instrumentation commonly used in industrial chemistry, such as HPLC, GC-MS, FTIR, and NMR spectrometers.
- **Document Management:** Proficiency in document management systems and tools for organizing, storing, and retrieving scientific documents, reports, and research papers. Examples include Microsoft SharePoint, Google Drive, or Dropbox.
- **CAD Software:** Basic understanding of Computer-Aided Design (CAD) software, such as AutoCAD or SolidWorks, can be beneficial for designing laboratory equipment, prototypes, or process flow diagrams.
- **Chemical Inventory Management:** Familiarity with software systems for managing chemical inventories, including tracking stock levels, monitoring expiration dates, and ensuring compliance with safety regulations.
- **Safety and Compliance Software:** Knowledge of software tools for managing safety data sheets (SDS), chemical hazard information, and regulatory compliance requirements, such as ChemAlert or MSDSonline
