THE HR MANAGER,
ACCORD MEDICAL SUPPLIES LIMITED,
NAIROBI, KENYA.

RE: APPLICATION FOR TECHNICAL SALES ENGINEER POSITION

Dear Sir/Madam,

I write to apply for the above position. I hold a Diploma in Medical Engineering from KMTC Loitokitok and am currently interning at The Nairobi Hospital, with manufacturer-level training from Dräger, Getinge, and Harley's Healthcare Solutions.

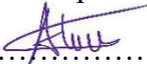

Alongside my internship, I run a B2B market intelligence and lead generation business in Kenya's medical equipment sector. Last month I negotiated directly with Dawei Medical (Jiangsu) Co., Ltd., securing a formal written authorization as their Market Development Representative for Kenya — with an agreed 8% commission structure on distribution Agreements I facilitate. I have attached that authorization letter with this application.

My daily work inside The Nairobi Hospital gives me direct access to how hospitals procure Equipment, what they require from suppliers, and the technical conversations that close sales in this sector. I am confident I can bring that knowledge into a structured sales team.

I would welcome the opportunity to discuss my application further at your convenience.

Yours Sincerely,

Alvin Kiprotich
