PROFESSIONAL SUMMARY

UAE-based Biomedical Engineer with 4+ years of hands-on experience in installation, preventive and corrective maintenance, and technical support of critical care, diagnostic, and imaging medical devices. Expertise in ventilators, dialysis machines, patient monitoring systems, and hospital imaging equipment. Proven record in reducing equipment downtime, optimizing biomedical operations, and supporting sales and service targets. Skilled in vendor coordination, regulatory compliance (ISO 13485, ISO 14971), and customer relationship management. Immediately available for deployment in hospital, clinical, or medical device service environments.

CORE COMPETENCIES

- Biomedical Equipment Installation & Commissioning
- Preventive & Corrective Maintenance (PPM & Breakdown)
- Ventilators, Infusion Pumps & Patient Monitoring Systems
- Dialysis Machines & RO Systems Maintenance
- Imaging Systems Support (X-ray, CT, C-arm)
- Technical Troubleshooting & Field Service Operations
- Customer Relationship Management & Staff Training
- Service Documentation, AMC/CMC Management
- Vendor & Spare Parts Coordination
- Regulatory Compliance Awareness (ISO 13485, ISO 14971)
- Medical Device Risk Assessment & Safety Protocols
- Clinical Workflow Integration & Operational Efficiency
- Inventory Management & Spare Part Optimization
- Field Service Operations & Remote Technical Support

Professional Experience

Hospics Global, Kalpaka Castle, Kerala, India | Kalpaka Castle, Kerala, India

Jan 2020 - Jan 2022

Biomedical Sales & Service Engineer

- Installed, commissioned, and maintained medical equipment across multiple hospitals, ensuring operational uptime.
- Conducted technical demonstrations and training for hospital staff to improve device adoption.
- Provided on-site, remote, and emergency troubleshooting, reducing average equipment downtime by 20%.
- Generated and managed sales leads through visits, calls, and follow-ups, supporting revenue growth.
- Coordinated with vendors and internal teams to ensure timely procurement of spares and equipment logistics.
- Maintained accurate service records, equipment history, and AMC/CMC documentation.
- Supported achievement of service and sales KPIs through effective technical and client engagement.
- Collaborated with clinical engineers, biomedical teams, and hospital technicians to streamline workflow processes for smoother device operation and emergency response.

Biomedical Engineer

- Conducted preventive, corrective, and calibration maintenance of hospital medical devices including ventilators, infusion pumps, dialysis machines, OT tables, and imaging systems.
- Performed installations, safety tests, and performance inspections, maintaining compliance with biomedical standards.
- Supported critical care and diagnostic departments by minimizing equipment downtime and ensuring device readiness.
- Managed AMC/CMC schedules, service records, and coordinated with external vendors for specialized repairs.
- Assisted clinical teams in device usage and troubleshooting, enhancing operational efficiency.

EDUCATION

University for the Creative Arts, Epsom, UK

| Epsom, UK

Jan 2022 - Jan 2024

BA/BSc in Business & Management

Govt. Polytechnic College, Kerala, India

| Kerala, India

Jan 2015 - Jan 2018

Diploma in Biomedical Engineering

TECHNICAL SKILLS

- Biomedical Device Maintenance & Calibration
- Basic Embedded Systems & C/C++
- MS Office Suite (Word, Excel, PowerPoint)

CERTIFICATIONS & LICENSES

- ISO 13485 & ISO 14971 Awareness (Medical Device Standards)
- Biomedical Equipment Maintenance Certification
